FLASH FROZEN | LIVE RESIN | THC-A | THC-P | FORMULA-X | DELTA-8 | DELTA-9

About Us

Frozen Fields was established mid 2022 to drive the cannabis industry forward with innovative, cutting edge and truly exceptional products in the hemp-derived cannabis market. Our foundation is derived from cannabis industry veterans, an industry-leading scientist, and an established multi-million dollar CPG industry sales team.

Our passion is to create the best feeling, most effective, and best tasting hemp derived cannabis products on the market. Frozen Fields is excited to introduce innovative Patent Pending Formula-X combined with genuine flash frozen Live Resin, and other premium ingredients. We plan to entice cannabis consumers to become a force in the hemp derived cannabis industry.

We're focused on creating unique formulations—using only quality ingredients—to provide consumers with experiences they can love and rely on.

Frozen Fields

Our Values

As cannabis consumers, cultivators, and innovators, we are pushing the boundaries to bring affordable, top quality, innovative products to market. At the heart of the products we release, is science, art, nature, sustainability, and quality. Our future is in the fine art of cannabinoid science with the flexibility to innovate, grow, and pivot as needed.

We believe in crafting the most unique and unmatched consumer experience, so they will be returning for more. We know customers will enjoy the feeling of a fresher, fuller, more flavorsome experience of Frozen Fields. Let us help you find your 'feel good!'

Liquid Diamonds

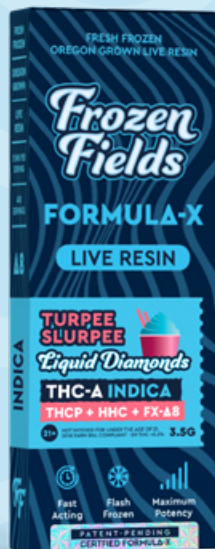

If you're a cannabis enthusiast, you've probably heard of THC, the compound responsible for the plant's psychoactive effects. But have you ever explored the astounding benefits held within its precursor, THCA? THCA cannabis, often overlooked, has been gaining attention for its potential therapeutic advantages.

Frozen Fields' vapes have the extra protection of being in child-resistant packaging by LeafLocker® that is made in the USA with wind energy.

Badder

2.5G

Sour Diesel (Sativa)

Granddaddy Purple (Indica)

Lady Zaza (Hybrid)

Badder is a refined form of cannabis THC-A concentrate that captures the pure essence of the plant in its most potent form. Each dab delivers a robust symphony of cannabinoids, offering an experience that's both powerful and true to the plant's natural profile. With its rich, broad-spectrum effects, Badder is the epitome of quality, offering a deeply immersive experience for those who seek the finest in cannabis concentrates.

Live Rosin

NEW!

Rainbow Belt (Hybrid)

NEW!

Platinum Jack (Sativa)

Master Kush (Indica)

Live Rosin is the purest expression of cannabis, capturing a broad spectrum of the plant's cannabinoids and terpenes through a solventless extraction process. This potent concentrate preserves the true essence of the strain, offering an authentic flavor profile and powerful effects. Each dab delivers a rich, aromatic experience, making Live Rosin a premium choice for those seeking an unadulterated, full-bodied encounter with cannabis.

LIVE RESIN

Our Formula-X is a brand new, extremely bioavailable form of hemp-derived Delta-8 THC discovered by the team at Frozen Fields. Formula-X is more easily absorbed by the body and provides an almost instantaneous effect. This proprietary process makes Formula-X experiences vivid and more euphoric than anything previously seen in the alternative cannabis category. Frozen Fields' vapes have the extra protection of being in child-resistant packaging by LeafLocker® that is made in the USA with wind energy.
