ABOUT US

ST Climate

Our Mission

At ST Climate, our mission is to empower businesses in the fight against climate change by providing solutions tailored to their specific processes through our team of experts each with extensive experience in their respective fields and to promote sustainable development.

Our Goal

Our goal is to reflect our commitment to excellence to our customers and through close collaboration with them, help them reduce their carbon footprint, improve their ESG practices, and achieve their goals through a business approach grounded in environmental awareness.

OUR SERVICES

Three main service areas

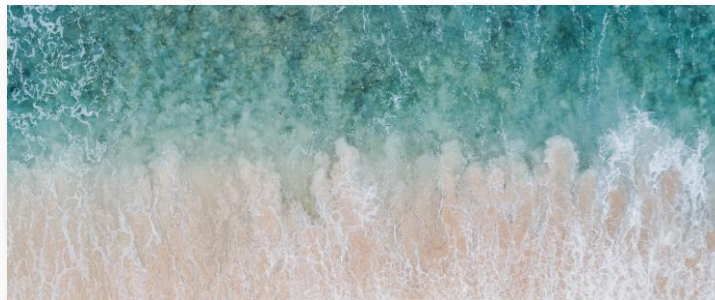

01

Project Development

Voluntary Carbon Projects

Voluntary Plastic Projects

I-REC Projects

02

ISO Reporting

ISO 14064-1 Corporate Carbon Footprint Reporting

ISO 14046 Corporate Water Footprint Reporting

ISO 14067 Product Carbon Footprint Reporting

03

Regulatory Reporting

TSRS Compliant Sustainability Reporting

GRI Compliant Sustainability Reporting

CDP Reporting

CBAM Consultancy

MRV Consultancy

ETS Consultancy

OUR SERVICES

01

Project Development

Voluntary Carbon Project · Voluntary Plastic Projects · I-REC Projects

Project Development

01

Voluntary Carbon Projects

We provide carbon certification consulting services for emission reduction projects across various sectors and application area particularly in renewable energy under voluntary carbon mechanisms such as the Gold Standard, Verified Carbon Standard, Global Carbon Council, International Carbon Registry, and Cercarbono and we facilitate the trading of the resulting carbon credits.

02

Voluntary Plastic Projects

We provide consulting services for plastic certification under the VERRA Plastic Program for facilities engaged in plastic waste collection and/or recycling, and we also trade the resulting commodities.

03

I-REC Projects

We provide certification consulting services under the I-REC mechanism for power plants that generate electricity from renewable energy sources and we trade the resulting credits.

OUR SERVICES

02

ISO Reporting

ISO 14064-1 Corporate Carbon Footprint Reporting · ISO 14046 Corporate Water Footprint Reporting ·
ISO 14067 Product Carbon Footprint Reporting

ISO Reporting

01

ISO 14064-1 Corporate Carbon Footprint Reporting

In accordance with the requirements of ISO 14064-1, we calculate organizations' direct and indirect greenhouse gas emissions, prepare corporate greenhouse gas inventories, and report on them.

02

ISO 14046 Corporate Water Footprint Reporting

We assess the water consumption of organizations and products, as well as their impact on water quality; we calculate blue, green, and gray water footprints. Using a life cycle approach in accordance with ISO 14046, we analyze and report on the potential environmental impacts of water use.

03

ISO 14067 Product Carbon Footprint Reporting

In accordance with ISO 14067 requirements, we calculate greenhouse gas emissions generated throughout a product's life cycle and report its carbon footprint. By assessing emission sources from raw material procurement through production, use and end-of-life, we identify opportunities for reduction.

HİZMETLERİMİZ

03

Regulatory Reporting

TSRS Compliant Sustainability Reporting · GRI Compliant Sustainability Reporting · CDP Reporting ·
CBAM Consultancy · MRV Consultancy · ETS Consultancy

Regulatory Reporting

1 / 2

01

TSRS Compliant Sustainability Reporting

Within the framework of the Turkish Sustainability Reporting Standards (TSRS), we assess organizations' sustainability and climate-related risks and opportunities; we support their reporting processes by preparing disclosures related to governance, strategy, risk management, metrics, and targets.

02

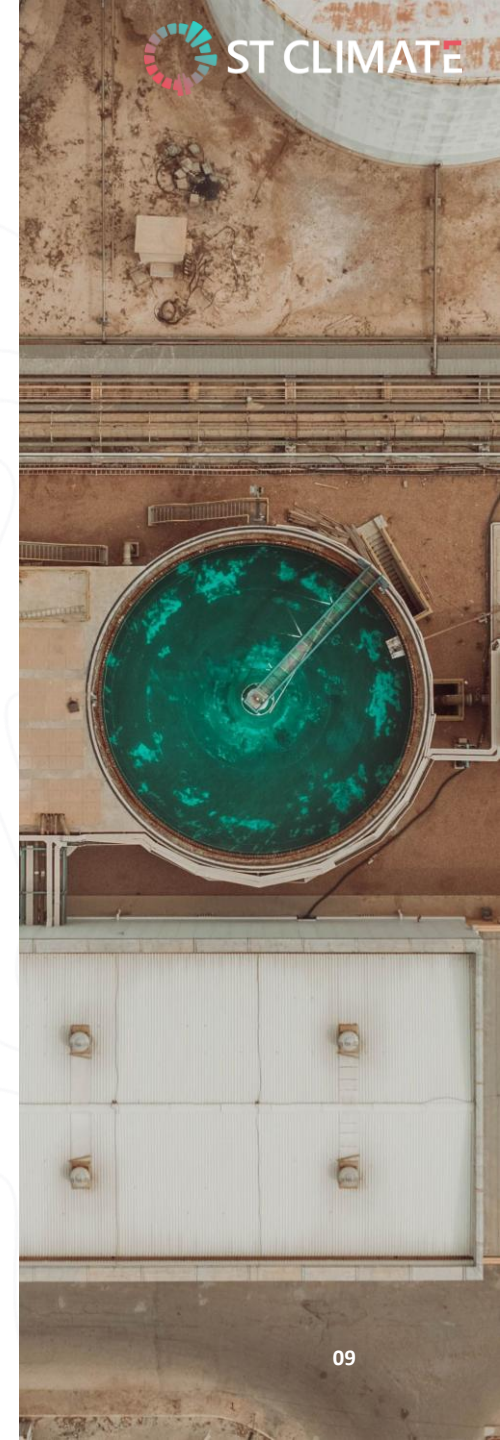

GRI Compliant Sustainability Reporting

In accordance with the GRI Standards, we assess organizations' impacts on the economy, the environment, and people, and identify priority sustainability issues. We provide consulting services throughout the processes of data collection, evaluation of performance indicators, and preparation of sustainability reports.

03

CDP Reporting

We manage CDP reporting processes for organizations in the areas of climate change, water security, and forests. We assist with the collection of environmental data, the assessment of current practices and the preparation of CDP responses.

Regulatory Reporting

2 / 2

04

CBAM Consulting

Under the Carbon Border Adjustment Mechanism (CBAM), we calculate the embedded emissions of products and provide support for the relevant data collection and reporting processes. By assessing organizations' level of readiness for the CBAM, we identify their compliance needs and opportunities for emissions reductions.

05

MRV Consulting

We provide consulting services to organizations regarding the monitoring, reporting, and verification (MRV) of greenhouse gas emissions. We prepare monitoring plans and emissions reports, manage data, and carry out preparatory work for the verification process.

06

ETS Consulting

We provide consulting services to organizations on emissions management and compliance processes under the Emissions Trading System (ETS). By analyzing emissions projections, allowance requirements, and potential carbon costs, we support the development of reduction strategies.

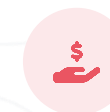

BUSINESS MODELS

How we work?

Consulting

We develop your projects such as those related to carbon, plastics, and IREC using the traditional consulting model and we leverage our network to sell commodities for export at market rates.

Revenue Share

To prevent project owners from having to bear the investment costs, we cover all expenses and share the net proceeds after the final sale of the issued certificates.

Trading

We conduct or facilitate the commercial activities related to products that are ready for sale or will soon be ready for sale, without charging a commission.

Training

Under the ST Academy umbrella, we help organizations build their capacity by providing training for the initiatives we carry out as part of our services.

BUSINESS PARTNERS

Standards and organizations we work with

Gold Standard®
