

Taunton Motoring Club Ltd

Treasure Hunt Regulations

Background:

These events have been run by TMC for many years. The events are sociable and non-competitive and well suited to family participation and standard road cars and form an ideal stepping stone to more competitive motorsport.

Format:

Events can run in daylight or darkness or a combination of the two. There is no element of timing on the public highway, except for an overall time limit to arrive at the final destination, (often a pub). Speed limits should be adhered to and householders should not be disturbed. Any driving that is likely to bring the sport into disrepute could lead to a ban from future events.

Dates / start times / entry fee and any equipment required will be specified by the organisers – normally through the TMC Facebook page.

Entry requirements:

All participants (driver and any passengers) must be members of Taunton Motoring Club Ltd. Annual membership can be taken out at the first event and a reduced price is available for family membership and for part years.

Events are held under the national competition rules of MSUK and an MSUK 'Exemption of Permit' is available for inspection from the club secretary.

Cars must have:

A valid MOT, be taxed and insured

Standard wheel arch extensions only.

All major internal trim must be in place (headlining, door panels, carpets and seats)

No spotlights (or auxiliary lights) to be fitted – unless standard equipment for the make and model, in which case they must remain turned off for the duration of the event.

Quiet exhaust – excessively noisy cars will not be permitted to enter (this will be judged by the organiser).

If you have any questions – please ask the organiser in advance!
