Table Systems

Adaptable lab furnishings have become an integral part of most lab layouts. Our table systems offer a great selection of products that provide a flexible, durable and affordable way to meet your needs, now and into the future.

Workstations have been designed to adapt to a wide range of laboratory procedures, equipment and users. They conveniently provide all the services and features in demand for today's self contained lab workstation.

- Workstations that provide complete electrical, plumbing, and lighting options.

Heavy duty tables are available in fixed or adjustable height versions. All heavy duty tables have an 12 gauge welded 2" X 2" tubular steel frame construction. They are available with leveling glides, locking swivel casters or vibration isolation casters.

Basic Tables are a value driven, adjustable height, standard duty bench suitable for many basic lab applications. The ideal table system for setting up a flexible lab space.

Available Accessories:

- Mobile and suspended cabinets
- Steel shelving
- Electrical outlet strips
- Fixtures
- Overhead service panels
- Bin rails
- Task lighting

We provide design assistance for all product
