

GENESIS

by Custom Firescreen Inc.

The Genesis

The Genesis Custom Firescreen glass door was the first fireplace glass door to ever be built without vertical bars on the glass. Without those bars on the glass it gave the fireplace a new look that has caught on throughout the industry.

The GENESIS

by Custom Firescreen Inc.

Genesis Features:

- *Custom Built To Fit Your Fireplace
- *3/16 Tempered Glass
- *Double Wall Insulated Frames
- *Recessed or Overlap Fit

The Genesis

The Genesis Fireplace Glass door by Custom Firescreen Inc. is a custom built all purpose door. The Genesis can be used with many uniquely shaped fireplaces. The different styles and options make it possible to provide thousands of different combinations for small or large openings. The Genesis can be built with slim or wide frames on top, bottom and sides.

Custom Built To Enhance:

The Genesis custom fireplace glass doors are built to enhance the beauty of your fireplace. It can be built to fit inside or outside of the fireplace opening. So it looks like it was installed the day your fireplace was built. We also design in as much glass as possible to maximize the viewing area of the fireplace opening. So you see more fire and not more door.
