

Infection Prevention and Control at Exotic Skin Shop in Regards to Covid-19

The Exotic Skin Shop has always been dedicated to providing our clients with the cleanest and safest experience we can. All our artists are certified through a Bloodborne Pathogen and Infection Control Course and we've commit to expanding upon our routine practices to keep you as safe as possible.

For your knowledge, the routine practices we have always used are based on the assumption that ALL blood, body fluids, secretions, excretions, non-intact skin, undiagnosed rashes and areas such as eyes, nose, and mouth may be potentially infectious, even if a person shows no symptoms of illness.

Aside from continuing with our routine practices, we are implementing the following:

- Your artist will be wearing personal protective equipment (PPE) that will either be sanitized (if reusable) or disposed of between clients
- Clients must wear a mask
- Our team will be wiping down all surfaces, including door handles, payment systems and other reusable equipment between clients with our Pre-Empt cleaner (a viricide proven to kill the corona virus family)
- Appointments will be staggered to encourage social distancing
- Only clients with an appointment will be let into the shop on the day and time of their appointment
- No more than two artists will be in the shop at one time
- Work stations are at least 2m (6ft) apart to help social distancing in the shop

We now require from our clients the following:

- Please make an appointment 24+ hours in advance
- Come to your appointment alone
- Be at the shop as close to your scheduled time as possible (so we can use scheduling to help with our sanitization procedures and social distancing)
- If you are experiencing any symptoms, caring for someone who is sick or have traveled recently, reschedule your appointment
- Observe social distancing while you attend your appointment
- **Wash your hands immediately upon entering the shop, and wear a mask**

If you have questions or require accommodations please give us a call (519-742-1020) or send us an email and we will get back to you as soon as we are able. Thank you for following these new measures and supporting us in these times.
