HELP DESK

Office Space

Assist clients find ideal office (private office or co-working) or lab spaces in Kendall Square-Cambridge area as well as outside locations in the State of Massachusetts.

Ecosystem Engagement

New to Boston? We offer curated ecosystem engagement services, depending on sectors of interest - with academia, industry, the startup ecosystem, as well as other stakeholders

Meeting and Event Planning

Organize workshops, off-site events and larger networking events tailored to meet company objectives. Our clients include both start-ups as well as large organizations.

Fundraising

This is a custom service, and not offered to all clients. In select cases, we work closely with founders and CEOs to facilitate their engagement with the investor community in Boston.

Graphic/Website design

Custom and cost-effective design services including logos, flyers, websites, company brochures, name cards and more.

Technology Scouting

Identify academic research groups, entrepreneurs, early and mid-stage companies engaged in selected innovation areas.

Hiring and Talent Acquisition

Cost-effective staffing solutions for early-stage businesses, covering all organizational needs. We have a special focus on AI-ML engineers!

Book keeping Services

Accounting and bookkeeping services through highly vetted and trusted partners to support early-stage startups' growth while keeping their finances in check.

IP management

TINS team specializes in IP licensing and offers expertise in business case development, company formation/structuring, and venture creation based on technology and business models.

Financial Modeling

TINS provide financial modeling services to help businesses with budgeting, forecasting, and decision-making. Our experts provide clear insights, accurate projections, and support for strategic planning.
