

Sealed system Waiver

The fridge cooling system's name is "Sealed System".

The sealed system is hermetically sealed and the handling method is issued to heavy regulatory legislation.

Due to its sealed system structure, not all issues can be resolved with 100 % success

1. Not all the Restrictions in the system can be removed in a single visit, or ever
2. We cannot detect all leaks, as some leaks may be internal with no possible access
3. Some compressor failures may cause damage to the entire system and replacing the compressor will solve the compressor issue but not the damage that was caused previously

The technician will do everything possible to resolve your issue but the success is not guaranteed and the results will be known only after 24 hours.

The sealed system service pricing structure:

Please note that the actual cost may change depending on the fridge type, the scope of work, and the cost of that compressor if required, which is not specified in the provided breakdown.

1. Arrival Connect to system and pressure reading \$100
 - If an access valve needs to be installed in your system \$50

At that stage, we can provide you with the pressure reading result, explanation, and quote.

2. Service stage one:
 - Evacuation of existing refrigerant off your system
 - Burst clean your system with nitrogen
 - Removing the old system filter and replacing it with new \$150
 - Replacing compressor - labor only ((if required) \$300
 - Compressor cost will be provided separately by the technician
 - Reseal your system
 - Pressurize your system for 15 minutes to detect leaks
 - Recharge your system with new clean gas (Refrigerant) \$200

After work is completed, your system needs to run for 24 hours to rebalance and to see if the problem was resolved

If after 24 hours your problem is not resolved or other issues are revealed, the technician will visit your house again and check the pressures again -that visit is for free.

Based on the pressure results he will advise you on the best course of action

I confirm the reading above and understand that due to the nature of the work, no refund can be issued
