### Grow Main Street Businesses

- Crowdsourced and crowdfunded investment and engagement platform raising up communities through development of main street businesses and community-based incubation of cutting-edge ideas.
- Community identifies and judges which solutions are most compatible to regenerate communities

### Fund Contest Entrepreneurs & Startup

- Directly or through participation in mass events.
- Will return 90% or more back to investors while creating a perpetuating investment fund that passes 30% of the profits of today's investments to tomorrow's next entrepreneurs and community development ideas.

### Capitalize Community Assets

- Corporations, celebrities, and government disaster recovery funds looking to rise up but not distort the voice of communities. All individuals are welcome to invest matching funds <that will influence the groups decisions about which community-oriented investments are most promising.>

### Accountability and Transparency matters.

- Provide expert financial analysis of potential investments, mentorship plus critical management infrastructure that will be shared with the voting community.
- Results will be shared with other cities so we can rise together.

### What else are we Looking for

- **Volunteers-** What talents do you have? Ie: Marketing and media experience.
- **Share transparent transformation forward** Join our weekly Thurs Noon 30 min zoom meetings and other events.
- Other best **logical solutions** that benefit communities. Let us know how we can help with yours.
- **Subscribe** to the Local Sparx [YouTube channel](#). Post comments and get your questions and concerns answered. You can **VIEW** our recorded boardroom zoom sessions and see transparency in action.
- Donate &/or Invest in our Transparent logical Compassionate Solutions. Currently we are using funds for **technology production and implementation**.

Financials	2022	2023	2024	2025
Revenues	\$2.7m	\$15m	\$25m	\$40m
Expenditures	\$1m	\$2.1m	\$2.2m	\$2.3m

## A Sample Opportunity –Sustainable Large Atriums General overview:

**Minimize Power, Food and Water Shortages.** Did you know, Las Vegas has the largest land fill in the **nation>>>>>** and the second largest **in the world?**

**So put our waste to work for us** in a way that makes economic sense

- First, we get paid to pick up and **convert** waste into energy, **economically.**
- Then energy powers processors which produces **water out of air** and using other technologies to oxygenate.
- Veterans and others **Grow, Train, Protect food locally,** with a **proprietary vertical Greenhouse system,** that can operate with less water in **every zip code.**

What has been accomplished so far:

- **Land and water rights in 5 US States and 4 Countries** showcase innovative technologies building community resiliency.
- A **blockchain certified** <proven proprietary> **evaluation process** with a track record of being correct to identify technologies with merit before funding to minimize risk.
- **Veterans Organizations** onboard to set up, teach, supervise and protect these community grows.
- **Audio/Visual Eyewear** purchased to produce a Reality Show footage while **developers and technology** actively build Gardens like Eden.
- Team is working **deferred**

Interested? We're looking for seed investors and partners, to move sustainable solutions forward
