# HUMAN DESIGN - RECEPTIVE ENERGY TYPE REFLECTOR

*Crystal: Lodolite*

Reflectors are incredibly open and receptive, so much so that they can lose themselves in the other despite their protective aura if they are not careful. As a Reflector, you mirror for us the health and wellness of the environments you are in. Use Lodolite to connect your mind and intuition, to help you pick up and understand the cues you are constantly receiving from the environment. Lodolite also improves communication and amplifies intuition, both with higher realms and with others.

**Sit with your Lodolite and affirm:**

I am enough! Trust paves my way.

I have incredible power and love inside me.

I am Surprise Clearly Seen!
