

Directors Connected Data

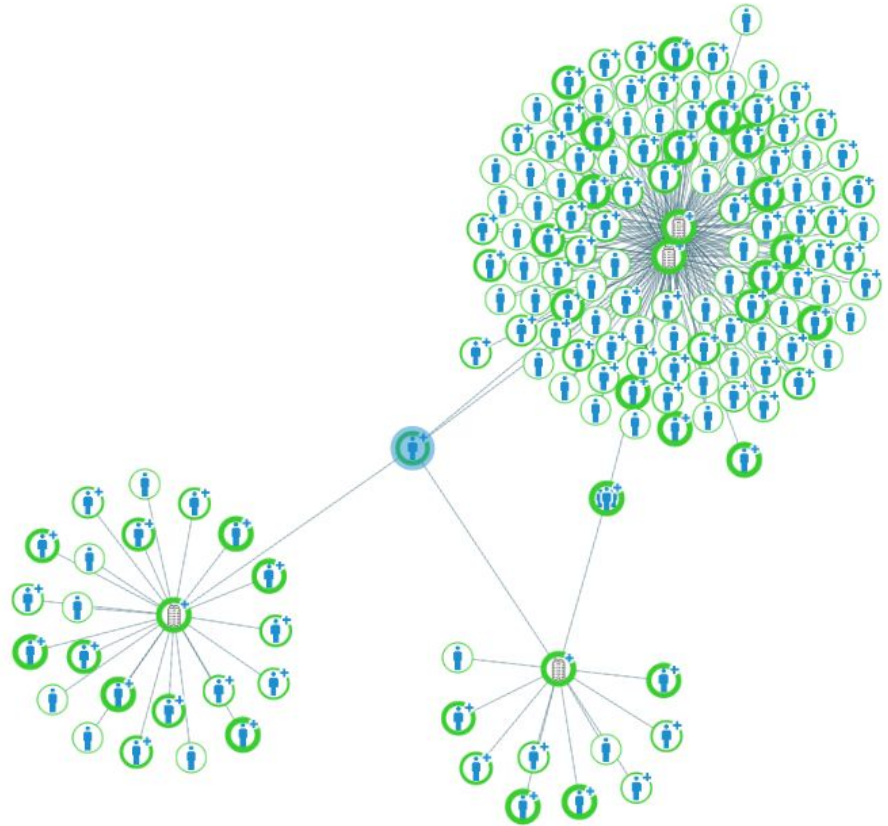

Overlay: Company Data

Enhance with company profile data. Here, solicitors in Aberdeen.

Find Influential People

Using **page rank** we identify directors who have the most influence - those people who have the largest number of co-directors in the same sector.

Directors Connected Data

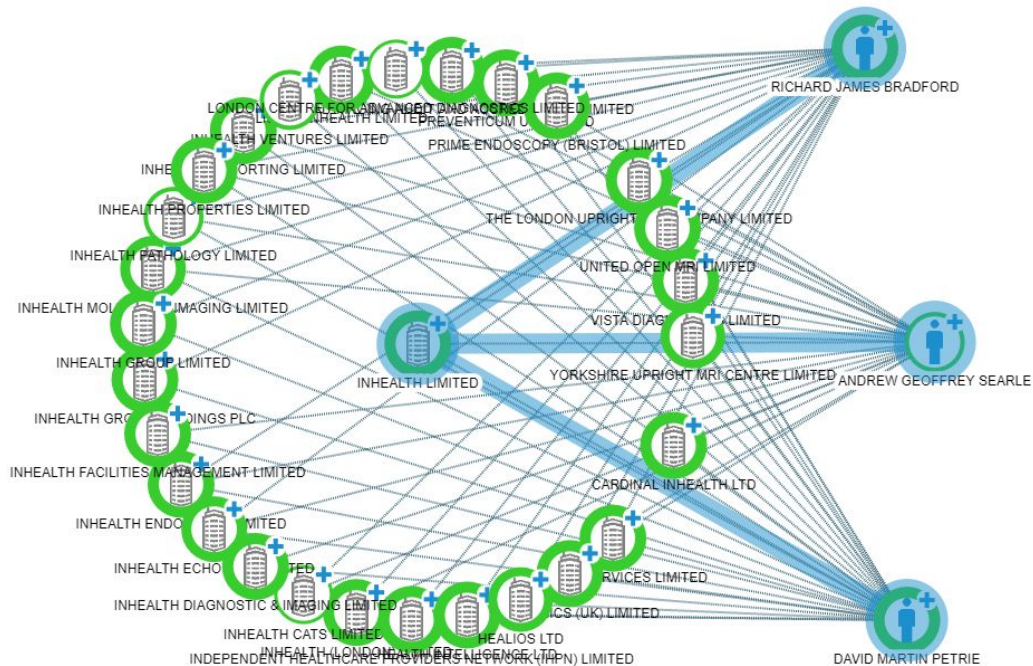

Overlay: Company Data

Enhance with company profile data. Here all medical companies with over 250 employees.

Find Prime Sales Leads

Using **degree centrality** we identify the company whose directors have most current appointments at other companies in the same sector.

Directors Connected Data

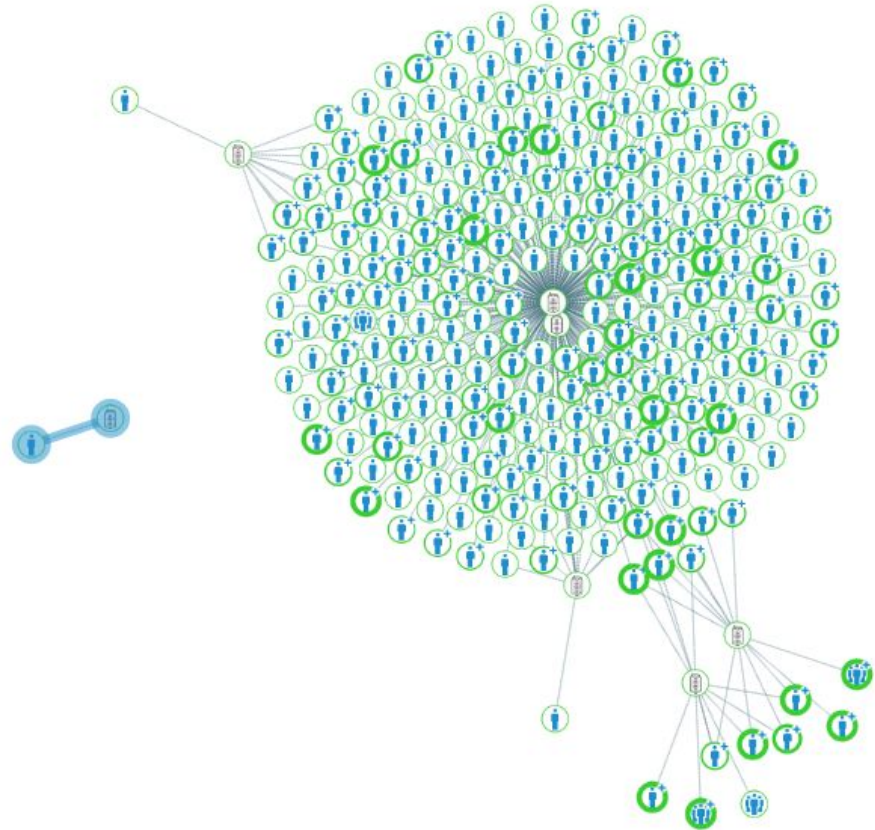

Overlay: Client Data

Enhance with the client's corporate entities, joint ventures, acquisitions, directors & partners.

Find Brand Infringement

Using weakly connected components we identify likely instances of brand infringement or director/corporate ID theft.

## Directors Connected Data

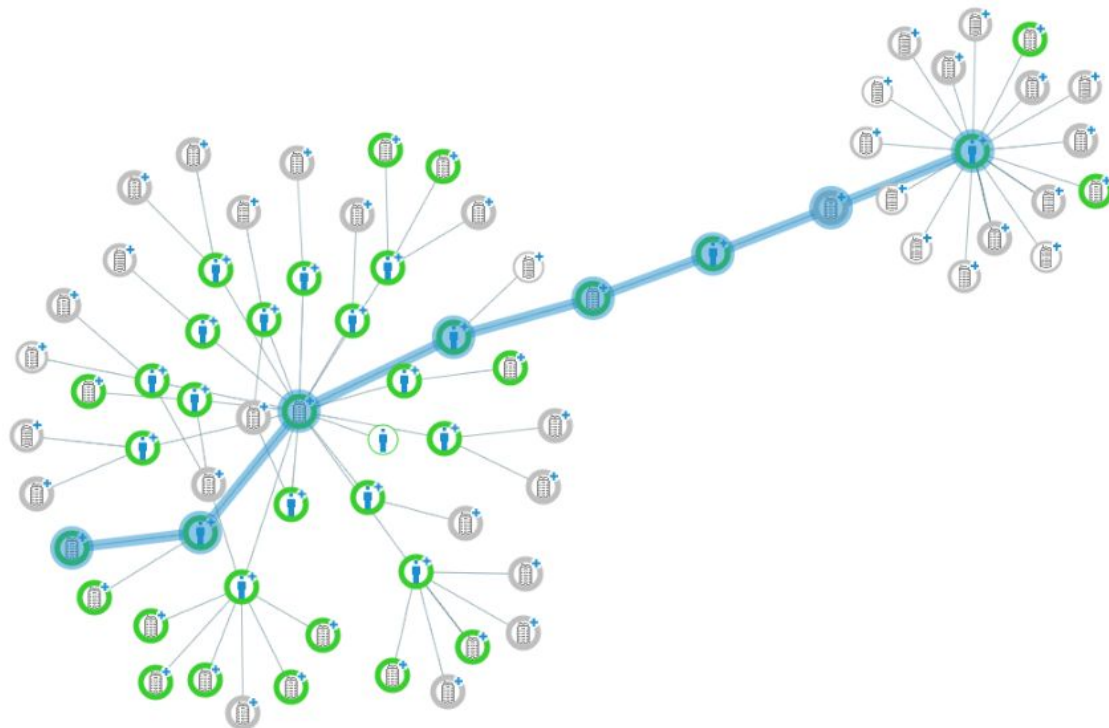

## Overlay: Client Data

Enhance with companies, locations, dates and people from the client's due diligence investigation.

## Find Conflicts Of Interest

Using **shortest path** we identify connections between the target entities and exposed potential conflicts of interest.

## Directors Connected Data

### Overlay: None

Use only the data and network structure of the knowledge graph.

### Find Multiple Records

20% of directors have multiple records at Companies House, over 3 million records affected. We use **network proximity** to identify them and present a more complete picture, with 98% accuracy.
