Dear parents and guardians,

The Dayton Public Schools work in partnership with parents and families of the students we serve. Your student deserves the very best education possible. Students today are expected to know more, understand more and perform at much higher levels than ever before.

Students cannot achieve if they are not in school every day. Each and every grade and subject area matters. Missing preschool or missing English class in 12th grade is equally harmful. The things taught in school every day lead to successful passage of the class and successful scores on the state tests. Before students can graduate they must pass the required tests and complete the number of required credits. Students cannot do either if they are not in school.

Please commit to your student's education and make sure that your student is in school every day. Students often will have excuses for not wanting to come to school. We know as caregivers to our children when they really are ill and need to stay home. However, many times students are tired and not really sick, but ask to stay home from school. Please make sure that your student gets enough rest so that the excuse of being tired is removed. School matters.

As we move through the rest of this school year, let's commit to making sure our students get to school every day. All students deserve an education that will allow them to be successful as adults. Together with students in school every day, we can achieve this goal.

Thank you for your support of your student and his/her education.

Sincerely,

Elizabeth J. Lolli, Ph.D.
