Locker Information

Meat locker plants are businesses that cut and wrap the meat from the carcass of the animal that a buyer has purchased from the auction. The carcass of the animal purchased will be delivered from the harvest (slaughter) plant to the meat locker plants. A slaughter/fee delivery fee will be charged to the buyer.

The Livestock Department will handle the paperwork for delivery from harvest plant to the meat locker. If you choose not to have your purchase harvested at the commercial harvest plant, you may check **“Live Pickup”** and it is the buyer’s responsibility to make arrangements with the livestock office to pick up the purchased animal on Sunday, June 22, 2025.
