

Dear Secretary Tepper,

Please consider this petition signed by 10 residents of the Environmental Justice Community abutting the proposed development known as Surfside Crossing located at 3,5,7&9 South Shore Road a formal request for a Fail-Safe Review Petition. This is a petition pursuant to 301 CMR 11.04 by ten citizens based on the attached expert report regarding a dense housing project located on Nantucket Island threatening environmental harm to the town's sole source aquifer. While this property was not in the 2010 EJ mapping it is now why we are bringing this to your attention.

Supporting documents are attached for your review along with the signatures of the following residents:

Meghan Glowacki, William Willauer, Sean Perry, Diane Cabral, James Cabral, Jay Cabral, Joan Stockman, Jack Weinhold, Linda Meredith, and Christopher Meredith.

If you need any further information from me or if I missed a procedural step along the way or if I may be of any further assistance, please do not hesitate to reach out to me.

Thank you very much for your attention to this petition. We look forward to your reply to my email and this request.

Sincerely,

Meghan "Perry" Glowacki
