

## COMING SOON! APRIL 4, 2025

Our urgent care services are projected to be available to the community April 2025. We can't anticipate the pet emergencies that arise; however, we will be here to support you and your pet when these unfortunate events happen.

At Brown Veterinary Services, we understand that pets can experience emergencies at any time, and their owners often require immediate care outside of regular office hours. With this in mind, we are excited to announce the launch of our After-Hours Urgent Care Services for pets in need of immediate attention during evenings, weekends, and holidays.

Our dedicated team of veterinary professionals is now available to provide urgent care services, ensuring that pets receive the timely treatment they need when your home clinic may be closed. These services are designed to support you and your pets by offering a reliable option for pet owners in urgent situations for those in our community.
