# Kentucky Community Development Block Grant – COVID-19 Public Service Project Application Form – Utility Assistance Program Project Summary

**Project Site Address (including ZIP code + 4):**

Taylor County Courthouse, 203 North Court Street, Campbellsville, KY 42718

**Please provide a detailed description of proposed project and how the proposed project has been impacted by COVID-19.**

This project entails the provision of utility assistance to LMI residents in Taylor County, Kentucky. COVID-19 has resulted in temporary manufacturing plant, restaurant, and retail closures. Businesses have had to lay off employees throughout the pandemic and, while many have reopened, many residents are still trying to financially recover. School closures have also forced parents to alter work schedules impacting their financial situations.

Taylor County Fiscal Court is requesting funding to help county residents who are in arrears on their water, sewer and electric bills. Green-Taylor Water District, a water provider for county residents, has reported \$17,301 in past due accounts; Campbellsville Municipal Water & Sewer System, a water and sewer service provider for county residents, has reported \$28,749 in past due accounts; and Taylor County RECC, electric provider for county residents, has reported \$78,150 in past due accounts.

Lake Cumberland Community Action Agency (LCCAA) serves the same 10-county region as the Lake Cumberland Area Development District (LCADD) and has committed to assist with the project. LCCAA is experienced with administering utility and rent assistance through federally funded programs. This experience will ensure that LMI residents benefit from this project.

Eligible households can apply for assistance of up to \$250 per month for a maximum of six (6) consecutive months. Payments will be made directly to utility providers.

This project will help the residents of Taylor County and will help ensure that the utility services remain financially viable and capable of delivering service. It is essential that residents continue receiving water, sewer, and electric services in order to ensure an acceptable standard of living.

Taylor County's unemployment rate was 18.3% in April 2020 and 4.9% in December 2020.
