Dear Kevin,
Mrs tompsen,

I am writing to make note of an inappropriate comment that was made by kevin gorrasi at visitation on July 9, 2019.

" we have to get mommy out of her shelter ! " we?

Minnie didn't say anything about getting out of her shelter or say shelter or make any reference to it.

What does minnie have to do with where her mother chooses to live and what can minnie do about it? What does kevin want to do about it?

So minnie should now internalize and share the feeling of need / anxiety with kevin **that we have to get MOMMY out of her shelter !** Not minnie. Not joe. Mommy. Poor mommy. As if she was the victim?! Thank you judge gorrasi. Minnie, you have to help kevin to help mommy! And kevin you have to help minnie to help mommy! We have to help mommy!!!

What does this have to do with visitation?

And more importantly, why does where margaret ingoglia live concern kevin gorrasi and once again, what does this have to do with visitation with my daughter ?

Furthermore, it wasnt my 4 year old daughters decision to leave, nor joe palomino . it was margaret ingoglia. Joe said to me on the phone on july 31, 2018 when I was at the courthouse, I don't want to go through with this. I want to speak to mom... I , robert malek spoke to mom and she lied and said she would ask for an adjournment. She didn't. So I said ok and didn't call joe back. Instead of me speaking to margaret I should have had joe speak to her instead and not believe her.

If kevin wishes to have concern for someone, let's have concern for joe palomino who has been through this for a second time in his life now, once when margaret ingoglia did this to his father and joe was in a shelter for 2 years and now again with robert malek where it's a year now. So 3 years or 20% of joes life, in shelters due to his mother's false attack upon 2 fathers. Claiming palomino tried to kill her to the court in 2015 and her son as she is falsely now claiming to our daughter in reference to me. No allegations in acs petition of physical violence. However, she chooses to concoct it now. Incongruous when her own statements in the notes contradict her allegations against me and even acs determined in 2015 that false allegations were brought against palomino. Margaret claimed in the 70 pct letter that palomino was arrested for trying to kill her in the past. A lie to the police, the da and I. Margaret claimed palomino tried to kill her in her in the past in her 2015 fam offense petition. He was never arrested as margaret had claimed. Father given custody. Furthermore, margaret claimed palomino threatened her with a stick and a knife!!!! Interestingly, there are zero acs notes regarding such a boisterous claim.

He has no criminal record regarding margarets criminal claims.

Mrs tompsen, once again, with cause I am requesting a different monitor of visitation. Kevin gorrasi has lied to the court that all of margarets lateness time was made up as I informed you and director Richard spitzer. Both of you had done nothing to rectify the matter. Now, he apparently feels a need to get margaret out of her shelter and tries to convince my daughter to feel the same.

I don't even want to bring up when minnie said she was with him outside of visitation. We already know about that.

I would also like to further note that minnie said joe dropped her on her back.

Sincerely,
Robert Malek
