

Bella Elite

Our latest Radio Frequency with UltraSound Contouring and Cellulite Reduction technology is finally HERE! ❤️

Dual technology of monopolar radio frequency (RF) and ultrasound which is an aggressive non-invasive form of energy for wrinkle reduction, fat reduction and reshaping of ALL body parts.

Bella Elite is ideal for the; face, neck, hands, back, legs, arms, flanks and abdomen.

Initially you may FEEL the softness of the skin and tissue immediately after a treatment. Over the next 10 days the body's systems will metabolize the treatment. 4 - 6 sessions are recommended. It takes **roughly sixty - ninety days** for new collagen to form. Results are expected to last **approximately 2 years** with no weight gain and proper maintenance.

\$150 per session
4 sessions for \$500
