

EQUIPMENT RECOMMENDATIONS FLY FISHING TACKLE

- **Rod:** A 9-foot rod with a medium to fast action and a 6 to 8 weight line would be suitable for fishing on the Condor River. You can also consider a 12 to 14-foot two-handed rod if you're interested in spey fishing.
- **Reel:** A fly reel of appropriate size for the weight line you are using and with a good drag system to help you control the fish in the river.
- **Fly line:** For the Condor River, a floating line of 6-8 weight with a tapered tip to help you cast large flies and for fishing on the surface or in shallow waters is recommended.
- **Flies:** Some flies you might consider for fishing in the Condor River are: Woolly Buggers in sizes 4-8, Sculpin in sizes 2-6, Nymphs (Pheasant Tails, Hare's Ears, Prince Nymphs) in sizes 12-18, and Dry Flies (Adams, Blue-Winged Olives, Elk Hair Caddis) in sizes 12-16.
