Not Too Big. Not Too Small. Just Right.

Achieve a finished look for your roller shade by adding a sleek, gently curved cassette that is just the right size.

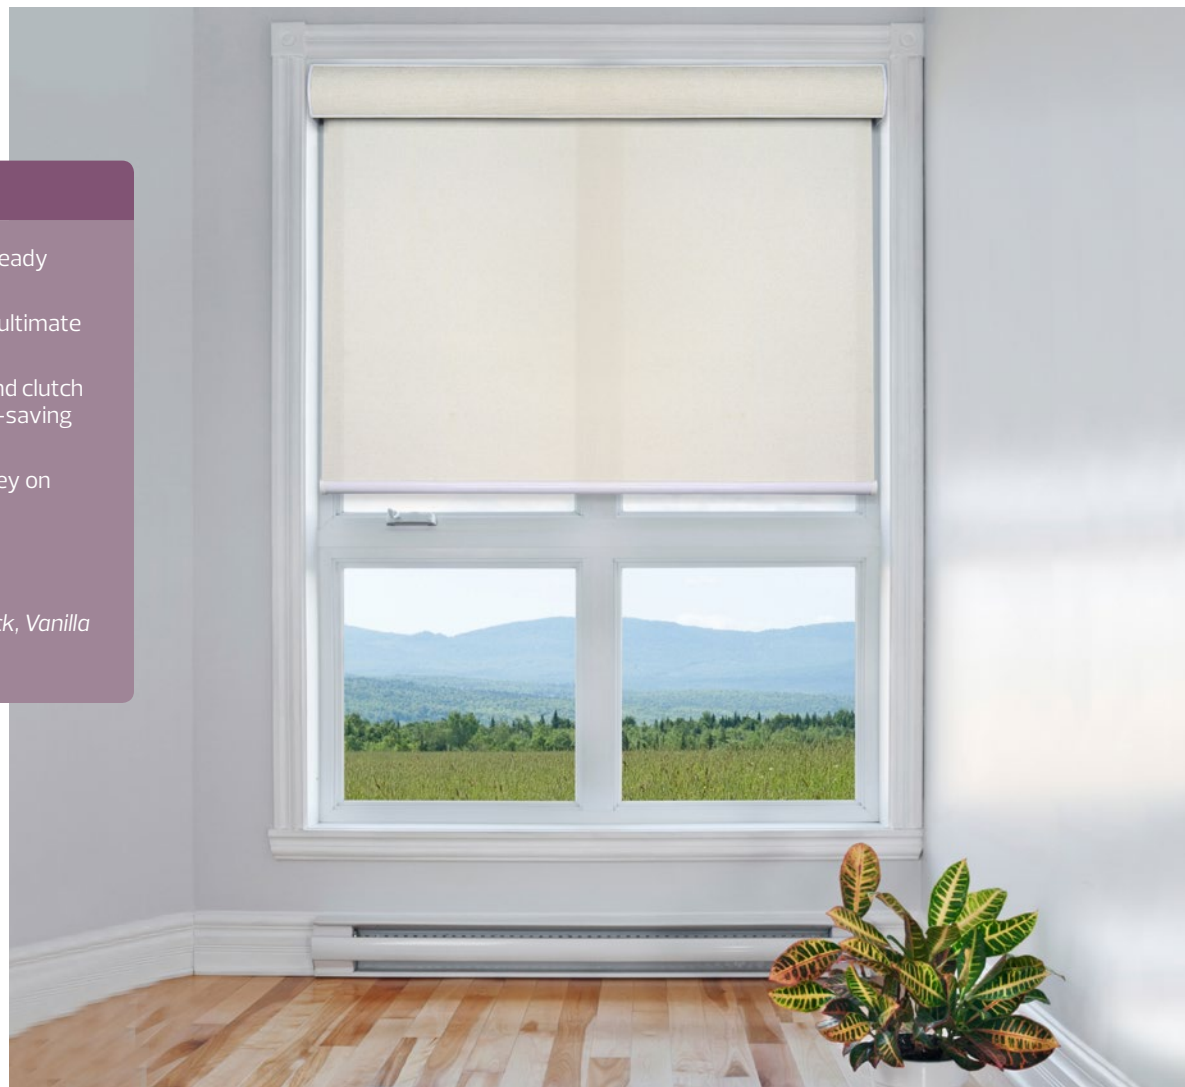

The Cassette 100 is our mid-sized option for what is already the most popular cassette system in the United States. This product boasts an elegant, thin wall design to reduce weight for easier installation and lower shipping costs. We've even redesigned the end caps with a better fit to minimize breakage and stop the cap from dislodging during shipping. Best of all, the Cassette 100 is compatible with the same clutches, end brackets, and options as our Cassette 120—no need for extra inventory. Use both systems economically. You save. Your customers save.

What's more, the Easy Spring Plus cordless roller shade system also works with our Cassette 100, so your window coverings will appear even neater, sleeker and safer from office to home.

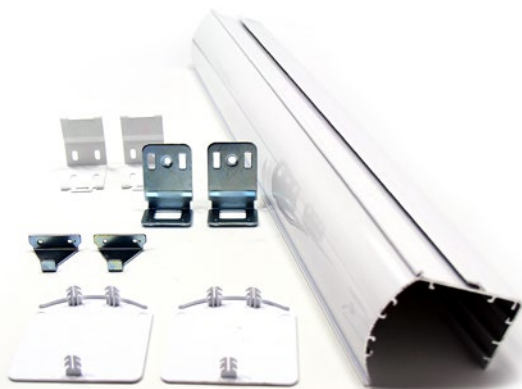

FEATURES & BENEFITS

- Mid-sized solution for our already existing cassette line.
- Improved end cap design for ultimate durability.
- Accepts same end bracket and clutch options as the Cassette 120—saving on inventory.
- Thin wall extrusion; less money on shipping.
- 2 ½" Max Roll Diameter.
- Holds shades up to 25lbs.

Available in White, Bronze, Black, Vanilla and Anodized.

Hide those rollers neatly with our **Cassette 100**. Same look, just the right size.

The RollEase Advantage

- #1 in quality and reliability
- Award-winning products
- Innovative design
- Cost-effective fulfillment
