2023 Overview of Domestic and International Terrorism - Casey Helm, FBI With a perceived increase in threats and violence, learn to better recognize the presence of various types of terrorism activity. Hear an overview in the modern contexts to include 2023 events related to international and homeland events.

American Red Cross Preparedness – Hands Only CPR - Bob Lorenz, American Red Cross You can perform effective CPR by delivering only chest compressions. Hear the logic, see the techniques demonstrated and try for yourself. Also see what is offered for AED training.

Accountability Without Blame: Put Yourself in That Person's Shoes! Rick Thompson, Eastman Sometimes those directly involved are voiceless and yet they get punished while leaving a deeper story untold. This presentation discusses the subtle differences between blame, responsibility, and accountability and the interrelations of those concepts. Finally, an argument is made for an investigation methodology that emphasizes accountability over blame.

Breaking Barriers to Return Employees to Work - Dr. Francois, Ballad Health Occupational Medicine Dr. Francois will be discussing how we can employees back to work safely after injury related illness and sickness etc..

Don't Leave Me Hanging – Joel Sherwood, Eastman Emergency Services What risks are associated with working from elevated heights? Learn the pathophysiology and symptoms associated with suspension trauma and intervention methods to reduce risks of this syndrome.

Drone Safety – FAA Regulations: Keeping You Safe and Legal – Richard Blevins, NESCC With growing interest in recreational use of drones, it is important to understand the importance of safe operations and know the FAA restrictions to prevent facing legal issues.

Drugs: A Current Perspective - Lt. James Woods, HCSO Are we gaining ground in the battle against drugs? Lt. Woods will review the latest trends in drug abuse relative to our region.

Ergonomics: Building an MSD Solutions Program - Laramie Locke, Eastman, If you've ever ended your workday feeling a bit more deflated and, well, older than when you started, then you aren't alone. Spending all day working at a computer is the reality for many people, and it's not uncommon to experience achy joints, headaches, and back problems.

Hold My Matches and Watch This! Brian Ramsey, Eastman Chemical Company This fast-paced presentation takes a dynamic look at the physical and chemical properties of flammable and combustible solids, liquids and gasses. Witness flash point, vapor density, vapor pressure, flammable range and much more.

House of Worship Safety and Security / Solo Civilian Response To Active Shooter – Sheriff Cassidy, SCSO Remember a time when we could leave our churches unlocked and never worry about theft or vandalism? Who would have imagined someone entering our churches with a weapon planning to massacre a body of believers? Unfortunately, locks, cameras, security teams and preventive plans are as commonplace as Vacation Bible School, Sunday School and Choir Specials. We will address many of the issues we face today, including solo response.

How Fentanyl Has Changed the Landscape of Drug Use - Melony Ison, Alice McCaffrey - Sullivan County Anti-Drug Coalition "Safe" recreational drug use is an outdated concept. Learn about the potency, effects, who is at risk, and practical steps to protect oneself and loved ones from the risk of overdose.

How to Keep Rockin' When OSHA Comes Knockin' – Don Elswick, Occupational Environmental Health & Safety (OEHS) Solutions Specialist for ELSMART Associates In this session, you'll learn goals for managing an OSHA inspection, steps to prepare for inspections, stages of inspections, with strategies to manage each stage, and employers, employees, and OSHA's rights during inspections.

Investigation Fundamentals- Al Gourley, Eastman, Creating an investigation program?? This class will review some key elements of an effective investigation process.

Is 911 Your Industry's Rescue Team? Joel Sherwood, Eastman Emergency Services Are you prepared for emergencies that involve rescue efforts? Do you have a plan that has been tested? Gain a better understanding of what these capabilities should look like in accordance with OSHA 1910.146 as well as other industry standards. Topics will include minimum regulatory requirements and industry best practices.

Mental Health First Aid – Andrea Amos, NESCC There are resources available to help us better recognize and understand mental health issues. This session will highlight topics that are available through the Mental Health First Aid Course.

Things That Bite and Sting – Tyler Wicks, Bays Mountain Park In this session we will learn about safety in the wild, how to identify the many hazards we encounter in the outdoors and how to remain calm when seeing wildlife that frightens us.

TOSHA Review of 2023 Workplace Fatalities – Wendy Fisher, TOSHA We will review workplace fatalities that occurred in 2023 and discuss potential ideas for preventing reoccurrence.

TOSHA's Whistleblower Protection Program – John Pietuszka, TOSHA Mr. Pietuszka will review the statute and processes that protect employees from retaliation for raising safety concerns.

Traffic Crashes: Causes, Effects, and Investigations – Dustin Jackson, Kingsport Police Department Traffic Unit Hear discussions from a subject matter expert on common causes of accidents and proposed counter-measures to avoid becoming involved in a collision.

Training for Multigenerational Workforce - Linda Elswick, ELSMART Associates 21st Century Occupational Environmental Health and Safety (OEHS) : This presentation will discuss that generations do have a lot of differences; however, they also share a lot of common ground. Learn information to support how to best approach each generation, use your own organization's values as a foundation to build upon, and try to include the focus elements from each generation to drive the impact and application of your training program.

Understanding How OSHAs Multi-Employer Citation Policy Can Affect Your Organization – Keith Harned, FDR safety, LLC OSHA has a very specific policy setting expectations for employers with different roles on multi-employer worksites that applies to both construction and general industry sites. The policy is relevant in lawsuits often following significant incidents when serious injuries or fatalities have occurred as the policy sets the standard of care expected.

What Is The Leading Cause of Injuries for Trauma Patients? - Dr. Testerman, Ballad Health Falls are the leading cause of injuries. Dr. Testerman will review statistics and case studies on why this occurs and what we can do to promote prevention.

Workers' Compensation 101: Improving Your WC Culture – Tina Barbee, TN Bureau of Workers' Compensation, Kingsport Office There are proactive measures being implemented that may surprise you. Hear practical advice for handling workplace injuries with useful information for employees/employers in navigating the WC system. Learn practical ideas to help save money, prevent disputes and make the process fair for both parties.
