

Silver Inspection Report

Vehicle Details

Registration	SM16GEU	Fuel Type	Petrol
Make	FORD	Vehicle Type	Car
Model	FOCUS TITANIUM		
Colour	Silver	Inspected on ramp	Yes
VIN	WF05XXGCC5GC81812	Mileage at inspection	65210

Body Exterior

Bonnet Catch [GP]	-
Bonnet Hinges [GP]	-
Door Locks [SGP]	PASS
Fuel Filler Cap [P]	-
Panoramic Roof [GP]	N/A
Sunroof/Convertible Operation [GP]	N/A
Registration Plates [SGP]	PASS
Windscreen [GP]	-

Engine Bay

Abnormal noises [P]	-
Antifreeze strength [P]	-
Aux Drive Belts [GP]	-
Brake Fluid Level [GP]	-
Clutch Fluid Level [GP]	-
Coolant Cap [GP]	-
Coolant Leaks [SGP]	PASS
Coolant Level and Condition [SGP]	PASS
Engine Mounts [P]	-
Engine Oil Level [SGP]	PASS
Excessive Fumes/Smoke [GP]	-
Fuel Pipes [GP]	-
Hoses/Pipes [SGP]	PASS

[GP]	Idle Speed [GP]	-
	Oil/Fluid Leaks [SGP]	PASS
	Power Steering Fluid Level [P]	-
	Turbo/Supercharger Abnormal Noises/Leaks	-
Electrical Systems		
	Air Condition Operation [GP]	-
	Start/Stop [P]	-
	Aux Lights [P]	-
	12v Battery Visual Condition [SGP]	PASS
	Brake Lights [SGP]	PASS
	Controls/Switches [SGP]	PASS
	Fog Lights [P]	-
	Headlamp Washers [P]	-
	Headlights [SGP]	PASS
	Heated Seats [P]	-
	Horn [SGP]	PASS
	Indicator/Hazard Lights [SGP]	PASS
	Instruments [GP]	-
	Interior Lights [GP]	-
	Media Volume [SGP]	PASS
	Number Plate Lights [SGP]	PASS
	Panel Lights [P]	-
	Parking Sensors [GP]	-
	Reverse Lights [SGP]	PASS
	Side/Running Lights [SGP]	PASS
	Start Button/Ignition Lock [SGP]	PASS
	TPMS Fitted Y/N [P]	-
	Tyre Pressures [SGP]	PASS
	Window Operation [SGP]	PASS
	Wipers and Washer [SGP]	ADVISORY

Front Suspension/Underbody

Anti-Roll Bar and Links [GP]	-
Engine Underside Leaks [SGP]	PASS
Power Steering Operation [SGP]	PASS
Shock Absorbers/Condition/Leaks [GP]	-
Springs/Suspension Units [SGP]	PASS
Steering and Ball Joint [P]	-
Steering Pipes and Hoses [GP]	-
Steering Rack Gaitors [P]	-
Steering Rack/Box [P]	-
Subframe Condition /Mountings [P]	-
Suspension Arm/Bushes [P]	-
Underbody Condition [P]	-
Wheel Hubs/Bearings [SGP]	PASS

Rear Suspension/Underbody

Anti-Roll Bar and Links [P]	-
Engine Underside Leaks [SGP]	PASS
Shock Absorbers/Condition/Leaks [P]	-
Springs/Suspension Units [SGP]	PASS
Subframe Condition /Mountings [P]	-
Suspension Arm/Bushes [P]	-
Underbody Condition [P]	-
Wheel Hubs/Bearings [SGP]	PASS

Transmission/Drive

Casings Condition [GP]	-
Clutch Hydraulic System [GP]	-
Clutch Operation [SGP]	PASS
Driveshaft assembly [GP]	-
Front CV Boots [GP]	-
Gear Link Operation [P]	-

Mountings [P]	-
Oil/Fluid Leaks [GP]	-
Propshaft [GP]	-
Propshaft Bearings/Supports [P]	-
Rear CV Boots [P]	-
Universal Joints [GP]	-
Abnormal noises [P]	-

Exhaust

Catalytic Converter Condition [P]	-	
DPF Visual Check [SGP]		N/A
Heat Shields/Mountings [SGP]	PASS	
Joints/Couplings [P]	-	
Manifold Condition [P]	-	
Pipes Condition [P]	-	
Silencer [P]	-	

Fuel System

Breather Pipes [SGP]	PASS
Evidence of Leaks [SGP]	PASS
Fuel Lines [SGP]	PASS
Tank Fixings [SGP]	PASS
Tank [SGP]	PASS

Brakes

Brake Pedal Operation [SGP]	PASS
Brake Pipes [GP]	-
Discs/Pads [P]	-
Flexible Hoses [P]	-
Fluid Leaks [P]	-
Handbrake Operation [SGP]	PASS
Pedal and Pad Linkage [P]	-
Servo/Power Assistance [P]	-

Wheels & Tyres

Position	Brand	Width	Profile	Size	Damage
Front Left	Other	215	50	17	Pass
Front Right	Other	215	50	17	Pass
Rear Left	Other	215	50	17	Pass
Rear Right	Other	215	50	17	Pass
Spare					Pass
Locking Wheel Key Present		No			

Road Test

Auto Changes	N/A	Auto Gearbox Park Function	N/A
Auto Sports Function	-	Brakes Vibration Noise	PASS
Cruise Control	-	Engine Abnormal Noise	-
Engine Performance	-	Exhaust Smoke	-
General Steering/Handling	PASS	Hot Restarting	-
Instrument Controls	-	Overheating Evidence	PASS
Paddle Controls	-	Parking Sensors	-
Road Holding/Stability	PASS	Steering Effort	-
Suspension Noise	-	Warning Lights	-
Test Distance	6	Speed Achieved Up To	Pass
Locking nut on alloys	No		

Advice and Information

This report has been issued by Used Vehicle Inspections Limited as requested by the car dealer ("Dealer") referred to above. It is produced in accordance with the terms and conditions accepted by the Dealer and is provided for the sole use of the Dealer and should not be relied upon by any third parties.

A fully trained mechanic has carried out a visual inspection of the parts listed within the report, at the mileage specified above. Prior to carrying out the inspection, the Dealer and Used Vehicle Inspections Ltd entered into a contract for the Vehicle Inspection and the subsequent report which is subject to the Used Vehicle Inspections Ltd terms and conditions ("Terms"), a copy of which the Dealer acknowledges it has received and agreed to. The Used Vehicle Inspections Ltd does not cover the parts/items which are listed or referred to overleaf.

Used Vehicle Inspections Ltd will have no liability to anyone other than the Dealer in relation to the Vehicle Inspection carried out or the subsequent Report. The statutory rights of consumers are not affected.

The Used Vehicle Inspections Ltd can only describe and/or identify defects or advisories actually found and/or which are reasonably capable of being found upon an external visual inspection of the vehicle at the time of the check. We cannot be held and are not responsible for any latent defects which are later discovered.

The motor mechanic shall inform the Dealer of any defects and advisories detected as a result of the Vehicle

Inspection. It is at the Dealer's sole discretion as to whether such defects and/or advisories are fixed by the time of sale. The Dealer remains liable for all defects and advisories reported.

Items/parts not checked by the motor mechanic are:

- a) Oil and fuel consumption;
 - b) Source of oil leaks;
 - c) Brake lining material (other than what is immediately visible and can be seen without dismantling anything);
 - d) Brake fluid for contamination. Brake fluid will deteriorate over a period of time and we advise that it be replaced as recommended by the Vehicle manufacturer;
 - e) f) g) h) Operation of cassette, compact-disc players, TV/DVD/satellite navigation systems, Bluetooth or other in-car entertainment*;
Sound or radio reception and alarm systems*;
Cylinder compression, vehicle electrics and electronics which would require specific diagnostic equipment;
 - i) Exhaust emissions and/or catalytic converters. If this is assessed by the mechanic as passing the Inspection it only relates to confirming its external condition, gas tightness and security. The mechanic is unable to confirm its internal condition or effectiveness as this requires exhaust emission testing which is not included in the Inspection;
 - j) The accuracy of in-car computer systems (for example, but in no way restricted to, computers used for route finding, fuel efficiency or otherwise);
 - k) Exhaust emissions;
 - l) m) Air conditioning functions and efficiency*;
The habitation area of Motorhomes - The electrical systems and appliances, water fittings and appliances, and the gas fitting and appliances are not checked. These are beyond the scope of the Inspection. It is strongly advised that these are tested and checked by a suitably qualified person prior to purchase;
 - n) Vehicle Technical Systems - Many vehicles are fitted or equipped with automatic or computerised operating systems, which may be controlled by microprocessors. These include engine-management systems, fuel systems, ignition systems, air- conditioning systems, lambda-controlled systems, stereo radio, cassettes, amplifiers, compact discs (single and multi), TV/DVD, satellite navigation, active and self- levelling suspensions, gearboxes, turbo-chargers and superchargers, anti-lock braking systems, four-wheel drive and electronic lockable differential units, traction control, alarm and immobiliser systems, catalytic exhaust systems, and variable camshaft timing systems. Within the scope of the Inspection it is not possible to check fully the detailed operation of these systems due to the many variations in features and operating modes, and it is not possible to confirm that these systems are functioning fully to the manufacturers design specifications. As a result, the Engineer is unable to confirm the detailed operation of any of these systems other than giving an overall view and opinion on the performances generally inspected or checked. Therefore, We cannot be held in any way liable for failing to identify any malfunction or failure of any of these systems to perform to the specification as designed by the manufacturer; and
 - o) Non-standard accessories as a result of personal modifications or otherwise.
- *These items will be turned on and off only and will not otherwise be checked.
