

February 26, 2018

Dear Richard,

I wanted to thank you for providing your Set 2 training “Screen Time! What’s Good, Bad, or Too Much? Strategies for Plugging Into Healthy Technology” for child care providers in Washington County. We had high provider interest in this topic, which was reflected in the 29 providers registered for the training.

Additionally, in reviewing the training evaluation forms, providers left your training with a higher level of knowledge than before your training. Providers rated your knowledge about the topic as excellent. They shared that the materials provided were great resources, as well as your responsiveness to questions and answers was excellent. Providers included positive remarks and comments. Many stated it was an excellent and informative training. One provider wrote “Very insightful- walked away with more knowledge than walked in with. Did a great job- felt I was intrigued whole two hours-never lost interest in the topic. Thank you! Would take another class by you!”

From a coordination perspective, it was very easy to partner with you. You were extremely responsive, both by phone as well as email. You were timely in submitting your handouts for copies to be made. Your invoice was submitted immediately following completion of your training. We would absolutely recommend you as a trainer to other organizations! Thank you again for your partnership. We look forward to you training with us again in the near future.

Thank you,

Jessica Rosengreen
