

Andover Firefighters Santa Parade Committee

32 NORTH MAIN STREET
ANDOVER, MASSACHUSETTS 01810

September 27th, 2026

Dear Community Members,

The Andover Firefighters are pleased to announce they will be once again hosting the Andover Firefighters Santa Parade tradition. This event dates all the way back to the 1950's, with generations of firefighters hosting this popular community celebration. We are extremely proud of this event, known for its welcome start to another holiday season. This year's event will take place on Sunday, November 29th with a scheduled start time of 1 P.M., utilizing our traditional downtown parade route.

Like any successful community event, it would not be possible without the generous support of the business community. We invite your group or business to take part and help celebrate the holiday season. Participation information is available on our website.

We also kindly ask if you would consider helping to sponsor this year's event. Support goes to compensation of professional entertainment which pairs well with our volunteer participants. While the Firefighters Relief Association is the major sponsor of this event, we could not have such a large event without your assistance as well.

We host this event as one of the many ways your firefighter's give back to the community we serve and protect. The laughter and smiling faces of the community seen along the parade route is the reason why we organize this event. Please consider helping to keep this event a part of Andover's rich tradition.

Any amount you can provide would be greatly appreciated. All sponsors receive recognition on our website, www.andoversantaparade.com and sponsors of \$250 or more also have the ability to have featured logos on our website and printed flyers. We hope you have a safe and happy holiday season! If you have any questions or would like to participate in this year's event by entering a float, feel free to visit our website, email us at andoversantaparade@gmail.com!

Thanks again!

Ryan Beirne and Chris Thunberg
