

## Things that go bump in the night!

### Diagnosing Common Lumps and Bumps in the Pediatric Population

(Handout: Price, HN; 2019)

This is a case-based learning activity. The below resources and references are provided to supplement the lecture. Copies of the text slides will be available after the lecture.

Excellent education patient handouts can be found on pedsderm.net for FREE! There are also word document versions that can be added to your electronic medical record.

The screenshot shows the website for The Society for Pediatric Dermatology (SPD). The header includes the SPD logo, navigation links (HOME, CONTACT US), and social media icons. A menu bar lists various categories: About SPD, For Patients & Families, Certification, Publications, Meetings, Training, Research, Grants & Awards, Resources, and SPD Foundation. The main content area is titled "Patient Handouts" and contains a paragraph explaining the purpose of the handouts. To the right of the text is a photograph of a smiling woman and a young child. Below the text is a grid of 26 links to various handouts, including Acne, Alopecia Areata, Atopic Dermatitis (Eczema), Diaper Care, Hemangiomas, Hidradenitis Suppurativa, Hyperhidrosis, Hives (Urticaria), Isotretinoin, Mastocytosis, Moles & Melanoma, Molluscum, Nevus Sebaceus, Papular Urticaria, Perioral Dermatitis, Pediatric Skin Cancer, Pilomatricoma, Propranolol for Infantile Hemangiomas, Psoriasis, Pulsed Dye Laser for Port-Wine Stains, Pyogenic Granuloma, Risks of Indoor Tanning, Scabies, Skin Infections, Spitz Nevus, Sun Protection, Tinea Infections, Vitiligo, Warts, and Next up: Contact Dermatitis.

The Society for Pediatric Dermatology (SPD) has created a series of informative handouts, called **Patient Perspectives**, on common skin conditions seen in children and teens, for use by providers and families. We hope you will find these helpful. Please see the list below for current topics to access and/or print. These handouts are for personal and/or educational use, and should not be used commercially or for profit. The Society for Pediatric Dermatology and Wiley-Blackwell Publishing cannot be held responsible for any errors or for any consequences arising from the use of the information contained in these handouts.

- Acne\*\*
- Alopecia Areata
- Atopic Dermatitis (Eczema)\*
- Diaper Care
- Hemangiomas\*
- Hidradenitis Suppurativa
- Hyperhidrosis
- Hives (Urticaria)
- Isotretinoin
- Mastocytosis
- Moles & Melanoma\*
- Molluscum\*
- Nevus Sebaceus
- Papular Urticaria
- Perioral Dermatitis
- Pediatric Skin Cancer
- Pilomatricoma
- Propranolol for Infantile Hemangiomas
- Psoriasis
- Pulsed Dye Laser for Port-Wine Stains
- Pyogenic Granuloma
- Risks of Indoor Tanning
- Scabies
- Skin Infections
- Spitz Nevus
- Sun Protection\*
- Tinea Infections
- Vitiligo
- Warts\*
- Next up: Contact Dermatitis
