To help for humanity

I am glad to write this letter for informing help for humanity I have done first year for university in mount Kenya university Rwanda in department of bachelor of business information and communication technology (BBICT). now I started second year. According to the program I should finish to study university in may/2024

Truly as I see the opportunity help for humanity gave me to study university I take seriously because when I check situation of my family living in, it gives motivation to work hard in order to supporting them after I finish to study

I really appreciate you for sponsoring me because you have given me a hope of life when I had lost it god bless you so much
