

# Thank You

**Greetings,**

The pioneering educational message that Ain Al Khaleej Private School took it upon itself to advance.

It requires the combination of both scientific and educational elements together to carry it and advance it.

Creating our website is one of the important elements in this field.

This is an attempt by Ain Al Khaleej School to build a special relationship with students and their parents, aiming to clarify the student's rights and duties.

As well as the instructions that must be adhered to in order to guarantee these rights and implement these duties and instructions.

**Principal**
