OKFootMD
ORTHOPEDIC SPECIALISTS

A 3D anatomical illustration of a human figure in a seated position, viewed from the side. The skeletal structure of the entire body is shown in a light gray, wireframe-like style. The bones of the feet and lower legs are highlighted in a vibrant blue color. The background is dark with some abstract blue and yellow patterns.

SERVINGS: 1 DRINK

PREP TIME: 5MINS

*Legend goes, The Club Special was invented in the 1960's at
Twin Hills Golf & Country Club in Oklahoma City.*

DID YOU KNOW?

PUTTING YOUR LEGS UP THE WALL FOR A FEW MINUTES PER DAY...

THIS IS A POWERFUL AND RESTORATIVE POSE THAT HELPS WITH SENDING BLOOD FLOW TO YOUR CORE, EASES STRESS, HELPS YOU SLEEP, CALMS YOUR NERVES, RELIEVES SWOLLEN ANKLES, RELIEVES VARICOSE VEINS, RELIEVES HEADACHES, AND IMPROVES DIGESTION

The purpose of an adjustment

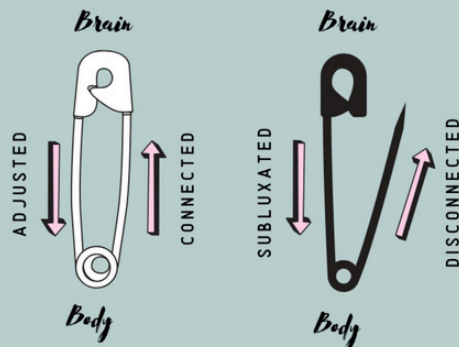

IS TO RESTORE...

- OPTIMAL ALIGNMENT
- THE ABILITY FOR YOUR BODY TO SELF REGULATE AND HEAL
- APPROPRIATE NERVE IMPULSES
- COMMUNICATION BETWEEN THE BRAIN AND BODY

The safety pin cycle

LIFE BEGINS IN THE BRAIN AND IS SENT TO THE BODY VIA THE NERVES, THE BODY THEN SENDS MESSAGES BACK TO THE BRAIN, A FREE FLOW OF THIS COMMUNICATION IS REQUIRED FOR NORMAL COORDINATION & HEALTH. WHEN THERE IS A MISALIGNMENT OF A SPINAL VERTEBRA IT CAUSES A DISCONNECT IN THIS CYCLE.

SUBLUXATION: Sub: less than
lux: light
ation: meaning a condition of.

A condition of being less than the full expression of light/life

CONVENTIONAL ONE-TIME CLOSE (OTC)

Construction financing that converts to a permanent mortgage in a single closing.

STEPHANIE
FADDISBROKER/OWNER
NMLS: 1713799

stephanie@epicmtgs.com
epiclending.brokeroriginationsolution.com

MORE ABOUT THE CONVENTIONAL OTC PROGRAM

Unlike traditional construction loans – which require a second credit qualification and closing before the loan converts to a permanent mortgage – Conventional One-Time Close converts to a permanent mortgage in a single closing. This generally means no requalification or second closing, saving borrowers time and money. Available for both stick-built and manufactured homes, this program also contains fewer limits on property types and permanent mortgage options.

PROGRAM HIGHLIGHTS

- Eligible buyers may borrow up to 95% LTV; up to 97% LTV when an eligible Freddie Mac CHOICEHome property is combined with the Freddie Mac Home Possible® or HomeOne program(s)
- PMI automatically terminates at 78% LTV
- Loan is available to finance the home, the lot, and any needed site improvements
- May be used with 15, 20, or 30-year fixed mortgages; super conforming/high balance mortgages (in designated high-cost areas)
- No requalifying when all documentation used to qualify is less than 365 days at time of converting to permanent mortgage

ELIGIBLE TRANSACTIONS

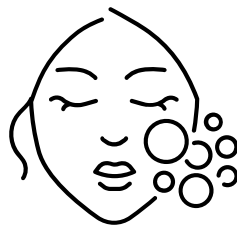

- Newly constructed 1-unit site-built homes, modular homes
- Newly constructed multiwidth manufactured homes that have never been attached
- Primary and second residences
- Detached PUDs

This is not a commitment to lend according to Regulation Z. All borrowers must meet qualification criteria.
