

A5 Specialties Team,

I wanted to take a moment to express my sincere gratitude for everything you did to help bring CARE Dental Implant & Cosmetic Center to life. Working with A5 Specialties was one of the best decisions I made during this process, and I could not be more pleased with the results.

From the start, A5 went above and beyond—not only helping me select high-quality equipment at the best value but also guiding me through every step of the build-out. Your attention to detail during construction, particularly in making sure plumbing and electrical were correctly placed, was invaluable. Your input on the design and flow of the office helped ensure each room was optimally sized and positioned, creating an efficient and welcoming environment for both patients and staff.

I especially appreciate your willingness to assist with the purchase and installation of equipment outside your own product offerings. That level of service and dedication is rare, and it's clear you genuinely care about your clients' success.

Supporting a locally owned business like A5 Specialties was important to me, and your professionalism, responsiveness, and integrity reaffirmed that choice at every turn. I look forward to continuing to work with you for repairs and future equipment purchases, and I recommend A5 Specialties to any new or existing dental office.

Thank you again for your partnership and support.

Warm regards,

Drew Phillips, DMD
