

Re: Chad Alger ASI

Chad was the lead man installing all of our office equipment when we opened up and we have always gravitated back to him for all things related to dental equipment. He's our man because of his integrity, doing what's best for me of the practice of understanding the issues involved. He then executes the repairs or installs with great skill. I also very much appreciate his willingness to work around our hours of operation. Greatest of all is my level of trust in Chad. I don't worry about ever being gouged or taken advantage of. He's our man without question.

Sincerely,  
Evan Hathaway DDS
