

15. Which four British cities have underground rail systems?
16. Which island was Napoleon on at the time of his death?
17. What was the name of David Bowie's extraterrestrial glam-rock alter ego?
18. What kind of weapon is falchion?
19. Which country is Prague in?
20. Which English town was a forerunner of the Parks Movement and the first city in Europe to have a street tram system?

## Clay County Utility Authority

### Community Phone Tree

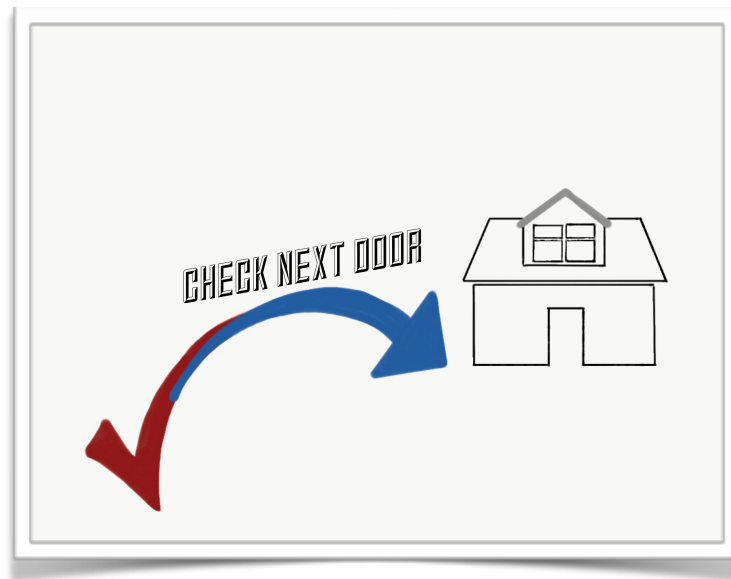

The Calling Tree has been out for six months and only has two names on it. Having neighborhood volunteers repair small projects prevents the board from hiring a contractor thus saving hundreds of dollars.

Please if you available to volunteer a few Saturday mornings a year, please email Steve Markwith or Al Gibbs.

### Check Next Door

Please remember to check next door. Give your next door neighbor your phone number. Let them know that you will be available if they need your assistance, as they will for you.

We are a small community. Let's do our best to come together.

### Air Conditioning and Heating

Your home's cooling and heating system (HVAC) probably uses more energy than any other area of your home. Although the heating season in North Florida is relatively short and mild, air conditioning is something most Floridians can't live without.

Getting the most cooling and heating from your energy dollar is important. Making sure your home is energy efficient and your HVAC system is in good condition and working properly means your family can be comfortable, summer and winter.

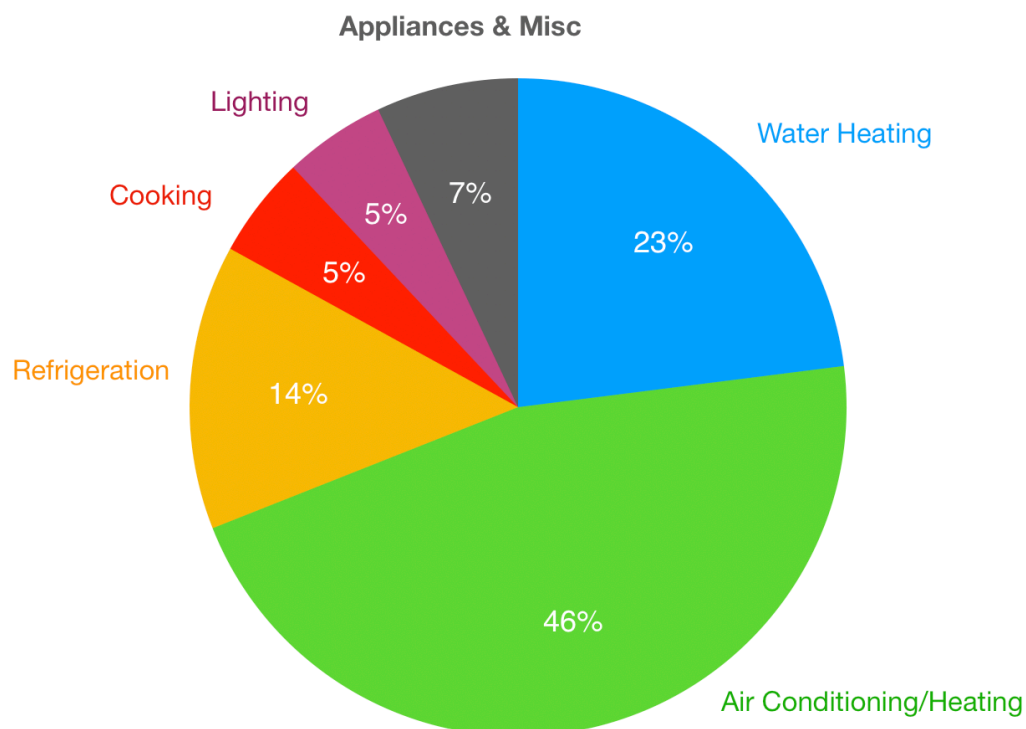

### **Air conditioning system**

Air conditioning is probably the biggest part of the your energy bill over a year's time. To trim the air conditioning part of your bill, you need to:

- Run it less. Use more efficient temperature settings.
- Repair leaky ductwork. Replace older, less efficient units.
- Raise the thermostat setting by 5 degrees or turn it off when no ones at home.

### **Run it less**

A higher temperature setting is the easiest and one of the most effective ways to lower your air conditioning use. Every degree makes a big difference. The recommended setting is 78 degrees.

Doris McEvoy- Jack's wife - has recently passed away.

Please keep Jack and his family in your prayers.

*May the Good Lord continue to bless their families and friends.*

Blueproject is committed to advancing their understanding in frontotemporal dementia to find a treatment or cure. They are making great progress. You can help too. If you would like to make a donation, **please visit <https://www.bluefieldproject.org/donate/>**

### **2018 Christmas Eve Luminary**

The Luminary was a huge success. We had about 80% community participation.

Thank you to everyone who went above and beyond to decorate your neighbors houses who were out of town for the Christmas holiday.

### **ONE LAST NOTE**

If you would like to contribute to the next newsletter or have anything you would like to sell, Please email me at [kgibbs477@yahoo.com](mailto:kgibbs477@yahoo.com). The only request I have is that you are positive in your wording and are willing to sign your name.

Sincerely,

*KGibbs*

Kim Gibbs, Vice President of Hillside

HOA On behalf of Hillside Board of Director
