

Cleansing Instructions

1) For paid APPOINTMENT: Please Text my cell **two set it up By Phone you can ask any questions then**, and to set up your appointment for your Free Remote Professional Cleansing & Spirit Removal.
or International Please Email: sales@azeztulite.com to set up your appointment.

SELF CLEANSING:

2) PROTECTION CRYSTAL GRID INSTRUCTIONS: Before your appointment take the selenite crystals (white splintery ones), and place one small piece in each corner of your home. As you place the crystal envision a pillar of white protective light coming from the crystal and stretching up above your roof. As you place the final crystal in the last corner envision a huge bubble of white light snaps into place connecting all four pillars, this bubble of protection goes above the roof and below the floor.

Set your intent that **ONLY** Positive Energy can come in your grid, **NO Spirits!**

(The crystals will hold this intent, as long as they stay in place. If you move take them with you to your new place).

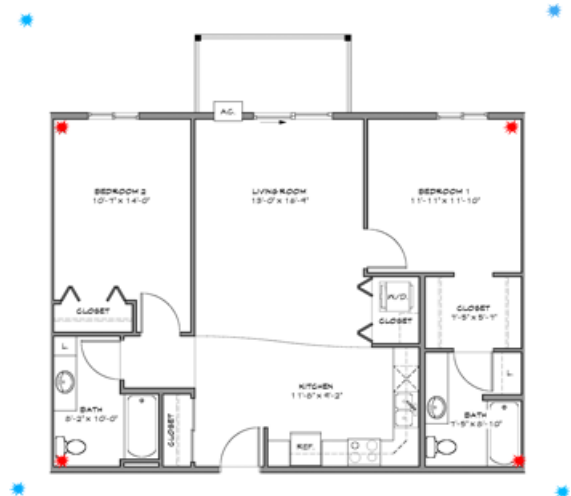

Diagram Placement of Crystals:

Red Dots Inside = Required Placement

BLUE is Optional Grid for your yard. Choosing to grid your yard offers extra protection so you will have a bubble inside a bubble.

Your home should be a sanctuary and this Protection Grid will keep it Spirit free. Highly recommended for people who are Empaths, Psychic and are sensitive to Spirits, especially if you have children with abilities. it's important they have a sanctuary free of interrupted sleep and Spiritual interference.

You will need a candle not included in the kit. Any size or color will work just fine.

3) For Paid Assisted Cleansing What To Expect:

You light your candle, and let me know by text that you are ready at the time of your appointment. I will text you easy to follow directions, step by step. You are protected by Angels during and completely safe, you can communicate your experiences through text during, and ask questions. Angels do almost all the work. You will then be given instructions on how to sage (removing residual negative energy) and all who participated in the cleansing are required to take a sea salt bath before leaving the protected bubble. If someone wants to participate and is not willing to take the sea salt bath or shower after, please do not let them attend. It is an important last step, cleansing your Aura of Negative energy..

IMPORTANT!!!!!! During the cleansing please do not surf the web, or take calls and text from anyone but me until the appointment has concluded. Please don't ever take photos or do Ghost Hunting in your home with the intent of capturing evidence this will **void the cleansing Guarantee**, and invites the worst passing by Entities to come in and live with you! It is the same as a Ouija board! You can take photos in your home of your family, it is the **intent** of capturing evidence that is an invitation to come in. Dabbling (doing spells, conjuring) also voids the guarantee.

Signs of Spirit Activity and Spirit Attachments

Residual Negative Energy (icky feeling)

Negative Energy whether from Spirit Activity, or High EMF (electro Magnetic Energy from appliances or electrical currents) can give us that “icky, creepy feeling”. Negative energy can be residual, from previous anger or negative emotions in the house, or from violence, they all leave a negative energy signature. Negative people can also leave traces of this Negative Energy. Sagging can help remove it. Sagging ONLY removes residual negative energy, not Spirits contrary to TV & Movies. If you would like a free psychic evaluation of your situation please contact me. High EMF can cause the feeling of being watched, paranoia, and headaches even with no Spirit activity.

Ghosts aka EBS Earth Bound Spirits Earth Bound Spirits or EBS are all suffering, and need to be crossed over, even if you think they are friendly. They all are suffering in some way. If you have a Spirit and it's a child, please understand it is not really a child! Children are very rarely stuck Earthbound, because they are divinely protected. BOWDS (see below), will often pretend to be children so you won't be afraid of them and so you accept them. In all our cases of “children spirits” they have all turned out to be BOWDS so don't believe what they are pretending to be.

SIGNS OF EBS aka Ghost Activity: Hearing footsteps, items moving, cold spots where there is no draft, waking up in the middle of the night, feeling like someone is in the room with you, dark shadows moving (EBS trying to manifest), lights turning on or off by themselves, someone touching you, photos or items knocking off shelves. hearing your name, or hearing talking, sudden fear, heart pounding, feelings of being watched.

SIGNS of crossed over Spirit Presence

Song on the radio, or something that reminds you of them, Butterflies, Dragon Flies and Birds taking a special interest in you, smell of flowers or perfume a loved one wore, Feeling a sudden rush of love coming at you, Feeling at peace. These are visits from the other side from Crossed over Spirits it is always love and positive.

Spirit Attachment (aka. Possession the cleansing removes these if you really want it gone).

Earth Bound Spirits (EBS, aka. Ghosts) as well as BOWDS (Beings of Other Worlds or Dimensions, aka. Negative Entities, or “Demons” we prefer using the name BOWD, Demon gives them way more power than they have). These Entities can attach to people's Auras (our energy field). 80% of people, will have a Spirit Attachment at some time in their life. Most remove themselves if you don't continue to do things to feed them like negative emotions, addictions etc. They feed on our negative emotions, and chaos. **An example is:** If you get drunk at bars you will most likely pick up a EBS that was an alcoholic before they died. They can attach to your Aura, then encourage you to drink so they can live vicariously through you while draining your energy. EBS that attach were very selfish people before they died. They live as parasites in our energy fields. You can pick one up during trauma too, these are usually the BOWDS, if you are a Light Worker and work with people who have Spirit Attachments you can pick one up from them also, if you are not diligent in cleansing and grounding protection. They are like ticks and people who have them can spread them. Sometimes you just get one with no fault of your own. If you take daily sea salt baths, like the surfers, you should avoid getting attachments.

SIGNS OF SPIRIT ATTACHMENT *Have you or a loved one experienced any of the following?* Feeling drained of energy even after getting a good nights sleep, Feeling “not yourself”, Having memory problems and missing time, Noticeable personality changes, Attached Persons eyes will change with anger, moodiness, Sudden unexplained or undiagnosed (Doctors cant find anything wrong) illness, Sudden cravings for drugs or alcohol when you never had them before, Mysterious pains and flares of anger, Paranoia, feelings of being watched all the time, Hauntings that follow you everywhere you live, Feeling depressed when you are not usually depressed. Grief for no reason, Unexplained Anger, Nightmares and night terrors, Unexplained scratches. Headaches, Body Aches, feeling like you have the flu all the time. Feeling hopeless, weighted down like you are carrying a burden, but have no idea what or why. Please REMEMBER You have ALL the power, because you are in this dimension, they are not. Do not give them any power and let them go during your cleansing.

Removal and cleansing prayer: During appointment I will instruct you by text when to say it. Please keep for self aura cleansings anytime in the future.

How To Smudge by azeztulite.com

Thank you for your purchase! Smudging can be done before any kind of ceremony, house cleansing, before yoga, meditation, in a group healing circle and in nature. Before beginning make sure you have these items in place. I suggest sitting in a quiet space for a few minutes to feel the earth below you, to soften into yourself, to

take some full deep breaths, and to get clear on the intentions you are calling forth before your smudging session. Smudging will only remove negative energy thoughts and negative emotions. Spirit Removal is a different ceremony please contact us for more info.

Directions:

- You will need either a bowl or a large clam shell or abalone shell to catch embers
- Herbs of your choice to burn (remove stems), or included Sage Stick
- Wooden Matches, or lighter
- Included Feather Smudging fan
- Open windows if you are inside
- Place the herbs or plant resin in the smudging vessel
- Light the herbs with a wooden match for 20 seconds or until it catches flame
- Wave the herbs with feather or hand so the flame goes out and the smoke swirls you can blow it out too no flame
- Smudge yourself first, waving the smoke over your face with eyes closed, over heart and limbs, over crown of the head and under the feet
- When you smudge others begin with the front body, then ask them to turn to do their back body, ask them to lift one foot then the other

- Have a clear intention to purify with your light and love anyone whom you are smudging. This is very important
- If you are smudging a home or a studio (wonderful for clearing away negative energy or when moving into a new space) ignite your herbs if they go out and begin the waving of smoke until every nook and cranny of the space has been smudged
- Once you are finished, take the ashes of the burned herbs and return it to the Earth

A Smudging Native American Blessing For New Beginnings

Read over this a few times so you are familiar with the blessing and the body parts, then smudge yourself while speaking this prayer. Replace any words that you feel work better for you.

I cleanse my Eyes so they will see the Truth all around me, allow my eyes to see the beauty I receive from Mother Earth and the Love I create within my family and my communities.

I cleanse my Mouth for truthful speaking. In my speaking words may I elevate my community. May I speak prayers of healing to Mother Earth.

I cleanse my ears so that I may Listen fully to the wisdom passed down from my ancestors, the creator, the Earth and my Spirit Guides. May I be open to hear the good and allow any negativities to slide off me.

I cleanse my heart so that I may be filled with compassion and gratitude. May my heart be in truth and grow with purity, balance and joy.

May I walk in beauty

I cleanse my feet so they will guide us on this life's journey as a light and truth seeker. May my feet stay grounded and remind me of how to walk in balance, love, joy and in harmony with my family, friends, earth, sky, water, plant and animal worlds."

May I walk in beauty.

Smudging is a very powerful practice and can work wonders in clearing away stagnant or unwanted energies in your home, in your heart or your mind. Being intentional, mindful, and calm as you are smudging creates a portal for you to go further into your spiritual work. The ritual of lighting a candle and then smudging yourself or your space allows you to gather presence, to let go of stress and to enter into your yoga practice, meditation, prayer or ceremony with intention. Let us rise up, clean our own energy fields and feed the greatness that lives inside us. Through this state of presence, may we also inspire our communities to live in their own greatness.
