

DRONE OPERATIONS | JOURNEY STEEL INC.

INNOVATING FROM ABOVE

Combining decades of expertise with cutting-edge drone technology to tackle your toughest challenges. From site safety to progress tracking, our drone solutions deliver efficiency, precision, and reliability.

AERIAL MAPPING & SURVEYING

Fast, high-resolution maps and surveys to support planning, construction, and land analysis.

SOLAR FIELD ANALYSIS

Optimize energy performance and save time with our drone-powered solar assessments.

SITE PROGRESS TRACKING

Real-time updates to keep your projects on track and meet deadlines confidently.

SECURITY INSPECTIONS

With aerial surveillance for real-time monitoring and efficient coverage.

MARKETING & MEDIA

Showcase your projects with stunning drone footage and photography.

WHY WORK WITH US?

By combining our industry experience with the latest in drone technology—like Digital Twin, BIM integration, and 3D defect analysis—we deliver insights that drive smarter decisions and better outcomes for your projects.

DANIEL RAYFORD

VICE PRESIDENT DRONE OPERATIONS
