

LUTHER MEMORIAL LUTHERAN CHURCH

Giving has been strong. Aaron will continue to provide financial report summaries to the council and the council may ask for detailed reports at any time. A motion was passed to move some estate annuity this year (8500) to the Lay Ministry Fund to continue funding ministry education. The council approved a cap the cost for the ALTA survey to be \$25,000 with the provision if more is needed then council will revisit it. A capital campaign committee is being formed with three members so far.

Updated policies and information were discussed. A motion was approved to approve Pastor Monica's funeral policy, which will be available on our website. Council approved constitutional revisions that reflect the ELCA's mandated revisions and revisions regarding voting for nonmembers on committees. These will be sent to the congregation with two weeks' notice before the congregational meeting for approval. Vicar Andy wrote a report that will be available on our website. It will help in the search for a campus minister and in the continued renewal and running of The Well. Council Point Person duties have been revised and shared with council members.

This summer, we will have two visiting groups: Bike the US for MS and Trinity Lutheran Church.
