

ELIGIBILITY GUIDELINES

Defining a high school senior can be difficult. Here are some guidelines that the USA/Canada NYI office uses to help define them:

- Someone in their final year of high school courses
- Someone who has not yet begun full time college or career training as a traditional student
- Someone who has not yet graduated from high school, but is not over the age of 19 at time of the event

We understand that there are unique situations that can make this hard to define. If you have any questions or would like to request an exception please reach out to your Field Quiz Director or the USA/Canada NYI office at nyiquiz@nazarene.org.
