

Call to Action - The Living Oath Initiative

To all Public Servants of Australia,

I address you as a living soul, not merely as a 'person'.

My name is Pete, and I extend unconditional respect to you as fellow living souls, as fellow members of our human family, as fellow cells of our collective social body, and as fellow units of the unity consciousness of our universe.

It is time for us all to step back and look beyond the ego theatre of humanity. Beyond religiosity, beyond government, beyond schooling, media, academia, and science. Beyond the usury capitalist debt management systems that exploit the lifeblood of our collective body. Beyond ideologies of materialism and atheism.

Beyond these veils lies what is self-evident: our shared wholly reality, our collective social body, and our duty to steward it with wisdom, integrity, and transparency.

Why This Matters!

In recent years, behaviour from those in positions of authority has undermined the trust between the people and those who present government on our behalf. If government is truly an organ of our collective social body, it must exist to serve the health, vitality, harmony, and enlightenment of the whole.

It is time to heal the separated-ego condition of our species and restore integrity to governance.

This Courtesy Notice exists so to invite you, our elected representatives, to lead the world by example.

The Living Oath Initiative

This initiative is profoundly simple. Every public servant — from clerk to king, from nurse to high priest — may immediately present their own Living Oath. As simple as taking a selfie and uploading it to the net.

A Living Oath is: Spoken from your own voice, Expressed with your own face, Declared from your heart and soul, A vow to steward justly the organs of our collective social body, An acceptance of full soul liability for the agendas you serve.

The agenda you serve is the soul justice you earn.

In an age of evaporation of our privacy, censorship, surveillance, digital ID, government-controlled currencies, and social credit scores, the very least that those in government can do is show, openly and personally, their commitment to steward justly, in good faith.

This is not about politics or religion. It is a secular, human logic. When our leaders share their oath as living souls, the people will witness their integrity first hand. Trust will grow, and the theatre of empty words will be replaced by authentic commitment.

Our Expectation Once this initiative spreads across humanity, everyone will be asking to see the Living Oath of those in positions of authority. And if there is no oath, then the question must be asked: why not?

Let it be clearly stated:

Those who cannot make this Living Oath must hold no office, write no law, and command no being. If you do not present your oath, then you are not fit to serve. Vacate your office and make way for those who will stand accountable as living souls.

Closing. We are experiencing a global reset of spiritual proportions. We have an opportunity to bring back integrity, trust, and honour into governance. This requires no money, no bureaucracy, and no delay. Only a few minutes of your time and the courage to speak your truth from your soul.

In anticipation of your Living Oath,

May your spirit dance in the groove of the loving intent of Creation.

With respect, On Behalf of We All, Pete www.living-oath.org
