

Encouragement for the Living Oath Initiative

A Call to All Public Servants to Declare Their Intent in Truth and Now-Time

To All Those Who Hold Office in the Service of the People:

We, your fellow men and women of this sacred Earth, call upon all who serve -
from the local clerk to the sovereign,
from the ward nurse to the high priest -
to step forward in transparency, honour, and presence.

For too long, the oaths of office have been buried in ceremony
and concealed behind institutional veils.

In this age of great remembering, we call for a new standard:

Let the oath of service be spoken in now-time.
Let the people see your face.
Let the voice of conscience be heard.
Let the soul accept full liability.

We encourage you to:

- **Record a Living Oath** - a short video declaration of your intent to serve the people with honesty, humility, and integrity. As easy as taking a selfie.
- **Affirm your soul liability** - accepting full personal responsibility for all acts taken under your authority.
- **Upload this Living Oath** - to a public database so that all who interact with you may verify your intent, your honour, and your presence .
- **Encourage all members** of your department, office, council, or institution to do the same.

The Living Oath Is:

- A voluntary, soul-level declaration of service
- A visible and audible record of conscience and honour
- A means to restore trust in those who claim authority
- A sacred commitment, spoken freely, not recited by rote

The Living Oath Does:

- Break the spell of faceless power
- Return conscience to the seat of governance
- Allow the people to discern integrity - not by title, but by presence
- Invite a culture of accountability, not coercion
- Honour the truth of being, not the mask of role

Therefore:

We, the undersigned, encourage all who act in the name of
governance, protection, justice, or care:

Speak your oath.

Show your face.

Stand in truth.

Be known.

Let those who cannot do this hold no office, write no law, nor command any being,

for the age of hidden power is ending,
and the age of Living Truth has come.

Create your Living Oath
in now-time, in spirit and peace.

By Virtue of this being an encouragement for all the fellow members of our
human family across the entire world
tap into your own creative capacity and make
your oath yours.

This is not a battle with those who have betrayed our trust,
it is our collective nurture to
correct and heal the shadow of our collective ego.

**It is our duty as fellow cells of the organism humanity to
correct and heal our species.**

**All or any of we all may present this petition to all or any public servant and simply ask if
they have done their soul cannon oath yet.**

If Not

Why Not?

Remember as those who present government said a couple of years ago -

“We are All in this together”
