CHEMICAL PEELS / RESURFACING

Based on your lifestyle, goals and skin concerns, a suitable resurfacing treatment is selected after a consultation.

Broken down into 3 levels, based on strength and social downtime.

LEVEL I	LEVEL II	LEVEL III
<p>Refresher for the skin. Enzymes and/or AHA's. Remove dead skin, leaving skin with a healthy glow. No downtime, "Glow n go"</p>	<p>For specific skin concern like, acne, superficial pigmentation, fine lines, folliculitis, etc. Can cause light shedding over 2-4 days.</p>	<p>For advanced skin, high concentrations of AHA's, BHA's, TCA is chosen. Causes flaking over 4-7 days. Great for every skin concern besides Sensitive/Rosacea Skin.</p>

DERMAPLANNING | 45 min - R600

Manual exfoliating method that removes dead skin build-up and vellus type facial hair. This treatment is recommended to prime skin and boost treatments.

ADVANCED BIO-CHEMICAL PEEL | 45 min - R600

Effectively removes the outermost layer of dead cells from the epithelial layer of the skin, revealing brighter, fresher skin. Recommended for all skin types/condition.

COMPLEXION PEEL | 45 min - R780

Consists of 4 powerful ingredients to resurface and enlighten the skin. Great for PIH, PIE, scarring and uneven skin tone.

VITAMIN C PEEL | 45 min - R850

Freshly prepared minutes before to ensure the highest concentration of Vitamin C. The boss of anti-oxidants. Recommended for ageing and pigmentation.

TCA (TRICHLORACETIC ACID) | 45 min - R900

TCA peel to lighten deep scarring and deep lines. Expect peeling for 3-4 days. For advanced skin. Client must be on prescribed home care. Includes home care ointment.

CIT / MICRONEEDLING

This procedure works to rejuvenate your skin by stimulating collagen production, reduces the appearance of wrinkles, fine lines and elevates the overall texture of your skin.

The physician selects the exact depth and suitable solution for your skin goal.

BEFORE

Discontinue use of Retinoids, Retinol, AHA's, and other active ingredients 3-4 days before & after treatment.

AFTER

Keep skin hydrated and protected; SPF is crucial. An after-care protocol is sent to ensure you get the best out your treatment.

STANDARD MICRONEEDLING | 60 min - R1200

Retinol, Collagen or Dark Spot serum is chosen by your esthetician.

POLKE DOT | 60 min - R1500

Stimulates Mitochondrial ATP production, accelerates cell turnover rate and decreases oil production. Not recommended for Rosacea/Sensitive skin.

GROWTH FACTOR | 60 min - R1700

Human derived anti-inflammatory markers. Skin calming for Rosacea/Eczema. Fibroblasts (collagen) are activated and Pigmentation is improved. High in anti-oxidants and growth factors from body's blood platelets.

ADVANCED SPECIFIC | 60 min - R1800

Dermal collagen booster and hydration replenishment. Improves skin immunity and reduces pigmentation production (Glutathione).

MICROCHANNELING | add on only: R300

Method used for deeper product absorption. Add on to chemical peels for stronger and deeper absorption.
