

5/26/2026

Dear Donor,

On September 11, 2001, our nation lost 343 brave firefighters. It was later discovered that very few had wills in place to protect their families. From this realization, the **Remember: Wills For First Responders** program was born.

For over 20 years, our volunteer attorneys, paralegals, and community partners have come together to provide **free estate planning services—including wills, living wills, and healthcare power of attorney—to first responders and their significant others**. These men and women dedicate their lives to protecting us; our mission is to protect them and their families in times of need.

Each year, we host four to five estate-planning events at no cost to participants. While our volunteers generously donate their time and talents, the **equipment, supplies, technology, and event expenses** required to serve hundreds of families are funded entirely through donations.

Your support is essential. Your donation helps ensure that no first responder family is left without critical legal protection. Whether funding updated technology, necessary supplies, or operational costs, **your gift directly sustains and expands this vital program**.

By supporting Remember: Wills for First Responders, you help honor the legacy of those we lost on 9/11 while providing today's heroes with peace of mind for the future.

We respectfully invite you to make a contribution today. Every dollar or donation in kind to be used for fund raffles/fund raisers truly makes a difference. Please visit our website at Willsforfirstresponders.com to donate, or use the QR code below.

With sincere gratitude,

Cathy Hutton
