

Wheatbelt Futures Forum

2026 Sponsorship Prospectus

Friday 1st May 2026
Northam Recreation Centre

2026 Invitation to Sponsor

The 4th annual Wheatbelt Futures Forum returns to Northam on Friday 1st May!

Building on the success of our previous Forums, the Northam Chamber of Commerce and the Wheatbelt Business Network are now in the early stages of planning to enhance the 2026 experience. The overwhelmingly positive feedback from the previous Forums assures us that the 2026 event will be met with great enthusiasm, and with limited spots available, demand is expected to be high. We're taking proactive steps to plan and promote the 2026 event to provide our sponsors with exceptional exposure and promotional opportunities.

Once again, the main goal of the Wheatbelt Futures Forum is to offer a short to medium term forecast, catering to businesses and government organisations invested in the Wheatbelt region's economic growth and development.

In an adjusted format for 2026, invited keynote speakers will present an update on many of the hottest topics affecting our region currently, followed by a panel session where they will be joined by other industry experts for an interactive audience Q&A. Topics for this year include:

- CCIWA Economic Update
- Construction and Housing
- Health
- Infrastructure
- WDC Update on Opportunities and Investment
- Renewable Energy

Additionally, Ministers and representatives will be invited to share insights into new policy developments and concepts related to the Wheatbelt region, shedding light on potential growth opportunities for businesses.

Platinum and Gold sponsors will have the chance to showcase their brands in an expo-style space at the event, fostering business-to-business connections and providing attendees with a deeper understanding of each represented brand. This expo presents a unique opportunity to highlight new technology, share information on brands, and preview upcoming releases and events.
