

CAPABILITIES STATEMENT

ABOUT

With 3 decades of experience in highly regulated industries, we provide CNC-machined components and assemblies for aerospace and defense. Our team brings leadership, engineering, and manufacturing experience from larger organizations, with the agility of a small business. With a 3,200 sq. ft. facility, mezzanine, and a 3/4-acre site, we have the flexibility and room to grow with our customers and support larger programs as their needs evolve.

Small Company. Big Minds. We combine the responsiveness of a small business with the systems, experience, and strategic thinking developed in larger organizations

COMPETENCIES:

PAST PERFORMANCE:

Our leadership has worked on projects involving:

- military aircraft spares
- unmanned air vehicles
- helicopter parts
- valves and regulators
- commercial OEM parts

DIFFERENTIATOR:

- Deep experience in AS9100, Lean, and Supply Chain Mgmt.
- 3/4 Acre lot that can be used for storage.
- To support broader program needs, we have a network of qualified supplier partners. This approach enables us to deliver an even wider range of products through a single, dependable source.

In-House Capabilities:

- 4 CNC Mills
- Assembly
- 2 CNC Lathes
- 1 CMM

Partner Capabilities:

- 5-Axis Vertical Machining
- Welding
- Punching & Forming
- Paint Booth Finishing
- Laser Cutting
- Machining of flexible materials such as rubber

332710- Machine Shops
332721 Precision Turned Product
332722 Bolt, Nut, Screw, Rivet and Washer
332510 Hardware

336413 Other Aircraft Part and Auxiliary Equipment
336415 Guided Missile and Space Vehicle Propulsion
339991 Gasket, Packing, and Sealing Device
336412 Aircraft Engine and Engine Parts
