Teacher Spotlight

Michelle Eliason

What instrument do you teach? Piano

How long have you taught with Key Mobile Music? 5½ years

What do you like most about teaching?

I love each student, and I really enjoy watching and experiencing the transformation of growth.

What was studying music like when you were younger?

Lots of practice! I didn't really love playing until I was older.

Tell us about your latest music project.

I started working on a song that has an interesting rhythm I have not played before.

What part do you feel that the recital experience plays in a student's development. It can build confidence. It builds an inner resilience to face the fear of playing in front of people watching them. We have fun showing our hard work.

How do you inspire students to practice more? I ask them to think about their desired goal. I ask them whether they want to play the song longer or shorter (usually less practice means playing a song longer, and if you don't like it, it can be incentive to work at it rather than avoid it).

What tip would you give to our students for learning an instrument?

Have fun with the process! Don't be too hard on yourself!

What is your favourite type of music?

I don't have a favourite. I like something in almost every genre.

What are your interests outside music?

Horses – Reading – Writing kids' books – Watching my kids play their favourite sport!

Thank you, Michelle!
