---

- Laughlin Water Service
- Flood Control
- Laughlin Bridge Construction
- LEDC Annual Meeting
- LEDC Scholarships
- Celebration for Dr. and Mrs. Joe Hardy

## Laughlin Water Service

LEDC continues to engage with the LVVWD on water service for Laughlin. Recently LVVWD admitted that they can no longer service any additional growth. They are now using Storage constraints as the issue. The LEDC has communicated with them multiple times over the first half of 2023, and we are updating our [laughlinedc.org](http://laughlinedc.org) website.

The LEDC has also engaged the Nevada Department of Environmental Protection for their assistance in resolving this water service issue. This is ongoing and updates will be posted on the LEDC website as things progress.

The LEDC will continue to engage with all parties to move this issue forward, provide for smart growth opportunities, and in time reignite the Casino SID project.

## LEDC Annual Meeting

The Annual Meeting was held on February 16, 2023. We had a great turnout and a wonderful evening of hospitality by the Laughlin Bay Marina. Our guests and members enjoyed an Italian dinner and live music. Thank you again to the Laughlin Bay Marina and we hope to see many of you at next year's Annual Meeting.

## Laughlin Flood Control

The Regional Flood Control District is working on a detention basin and diversion dike and other immediate impact items for the area of Bruce Woodbury and Thomas Edison. The March 15 flash flood raised the issue of this due to the impact on the roads and businesses at the end of Bruce Woodbury.

## Laughlin Bridge Construction

The Laughlin Bridge construction continues. Project is just a bit behind schedule. The LEDC monitors this construction for the benefit of the community.

The Southland Wet Utility design has yet to be addressed by the County. This study was first requested by the Laughlin Town Advisory Board in November 2017 with a resolution passed by the board. The LEDC raised the issue in October 2019.

We hope that with some new County Staff management that this request will be acted upon. Without it, the Southland properties along the new bridge connector road will have no plan for future development.

## LEDC Celebrates

### Dr. and Mrs. Joe Hardy

The LEDC is attending the Boulder City Hospital Heart of the Community Gala in June to participate in honoring Boulder City Mayor, Joe Hardy, MD & Jill Hardy, MLIS, Director, Boulder City Family History Center. With their combined respect for the residents of Nevada, and their dedication to our community, we recognize and applaud their achievements in public service. The Laughlin Township has benefited greatly from the fond stewardship of Dr Hardy as our State Senator. He is a friend of the Township and we celebrate his great career and his public service.

### Avi Kwa Ame Spirit Mountain National Monument

The monument was formally designated on March 21, 2023. This has already started to impact Laughlin as the Bridge Canyon Wash diversion system design and construction will be impacted. The project cost may escalate significantly as it is partly within the Monument area.

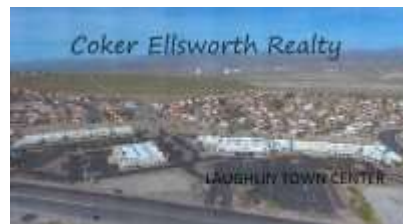

### LEDC Scholarships

The LEDC awarded four \$1000 scholarships to Laughlin High School students this year. Luisa Chapa, Tessa Bedell, Madelyn Lock, and Terie Santos were the recipients.

# Thank you to our Patrons / Enhanced Members!
