Laughlin Water Service

LEDC continues to engage with the LVVWD on water service for Laughlin.

The World Economic Support Agency, a recently created non-profit, is actively pursuing grants to fulfill the need for matching funds from the recently passed Federal Legislation that allocated \$29 million for Laughlin infrastructure. LEDC is working with WESA to achieve mutual goals.

LEDC Annual Meeting

The Annual Meeting for 2025 will be held February 13. We hope you can join us for an enjoyable evening hosted by the Laughlin Bay Marina.

Laughlin Flood Control

The Regional Flood Control District has yet to finalize the detention basin and diversion dike and other immediate impact items for the area of Bruce Woodbury and Thomas Edison. The delay is unwarranted and the LEDC continues to communicate with the CCRFCD on timing for this project.

Laughlin Water Reclamation Service

The Clark County Water Reclamation District has a need to upgrade the #2 Lift Station at W Casino Dr and the Force Main from that Lift Station. Easements are needed. However, the District cannot state if they have funding nor a date they will start construction. So the property owners are not going to provide an easement until those items are finalized.

Representation of LEDC at Laughlin Town Advisory Board Meetings

The LEDC has worked with County Staff so that the LEDC will have a spot in the Information Agenda at each Laughlin Town Advisory Board meeting. The LEDC provides topics we wish to discuss each month to County Staff. This has taken nearly a year to achieve. The first report out will at the January LTAB meeting.

2025 Nevada Legislative Session

The LEDC will be actively monitoring the Nevada Legislation process in 2025 and will voice opinions on those bills that effect Laughlin. Those of significance to our LEDC members will be communicated to the membership as necessary.

Thank you to our Patrons / Enhanced Members!
