

The RESTORATIVE303 Study: GET YOUR GUT BACTERIA IN SYNC

The **RESTORATIVE303 Study** is a clinical research study that is exploring an investigational drug to restore the microbiome (the bacteria that live in your gut) in **people with recurrent *Clostridioides difficile* infection (CDI)**.

Our study team is looking for people who:

- Are at least 12 years of age and who are currently experiencing an episode of CDI.

AND

- Have had at least 1 previous CDI episode (before the current one) within the last 6 months.

There are other criteria that must be met to join this study.

To learn more about the **RESTORATIVE303 Study**, please contact:

Dr. Alberto J. Odio

Study center: **Clinical Trials Management Services**

Address: **223 E. Thousand Oaks Blvd., Suite 214 | Thousand Oaks, CA 91360**

Telephone: **(805) 906-7800**

Email: **siteservices@clinicaltrialsmanagementservices.com**

Contacting us does not mean that you must join the study or that you will be able to participate. We are happy to provide you with the information needed to make an informed decision.

Taking part in this study is voluntary. Participants can leave the study at any time, for any reason.
