

Candidate Questionnaire

1. What is the purpose of education?
2. What do you believe the role of the federal government should be in education?
3. What do you believe is the number one problem facing government schools and how would you do to address this problem?
4. Do you think curriculum content in schools should be free from ideology? If so, do you think curriculum is nonideological for most of the schools in your state? Please provide examples to support your position.
5. What education legislation, if any, do you think needs to be proposed and passed?
6. Before you propose or co-sponsor education legislation, who would you consult for advice?
7. Do you support the election of, or the appointment of, the State Superintendent of Education? Please explain.
8. Do you support tax increases to provide more funding to local school districts? Why or why not?
9. Do you support banning Critical Race Theory's concepts and pedagogy?
10. Do you support biological males competing in biological female sports?
11. What is your stance on masks and potential vaccine mandates for children who attend government schools?
12. Do you believe gender identity or sexuality should be taught to children without active parental consent?
13. Student achievement in math, reading and writing has been declining across the country for over 20 years. Why do you think this is happening and what would you do to reverse this trend?
