

High-Resolution Oblique Imagery for Counties

High- Resolution Imagery Applications for Counties

Agencies and departments within the county will now have access to high-resolution orthogonal and oblique imagery at no additional cost! Imagery can be accessed from any web browser through the cloud-based CONNECT™ platform, or ask about solutions for integrating the imagery into existing workflows for GIS, public safety and more. Oblique imagery allows you to view and measure not just from the top down but the sides as well, providing you with a natural perspective to recognize and respond to objects captured.

All county departments are welcome to access and use the oblique imagery.

ASSESSORS & APPRAISERS

- » Save time and fuel costs with fewer field inspections, particularly for rural or hard-to-access properties
