Service Overview

Placenta encapsulation is a non-medical, elective service involving preparation of the placenta into capsules and/or other products.

This service is not evaluated or regulated by the FDA and is not intended to diagnose, treat, cure, or prevent any condition.

Client Responsibilities

Placenta must be refrigerated or frozen within 4 hours of birth.

Client must disclose any infection, fever, or complications during labor or postpartum.

Client must inform Three Suns of any neonatal illness or NICU admission.

Contraindications

Services may be declined in cases of infection, improper storage, or safety concerns.

Three Suns reserves the right to refuse or discontinue services at any time for safety.

Assumption of Risk

Client understands benefits are not guaranteed.

Client accepts full responsibility for the use of placenta-derived products.

Storage Disclaimer

Products are prepared in a controlled but non-sterile environment.
This is not a regulated food or pharmaceutical process.

Payment Policy

Payment is due prior to or at time of service.
No refunds will be issued once processing has begun.

Turnaround Time

Typical turnaround is 2–3 days but may vary.

Liability Release

Client releases Three Suns and its staff from liability related to use of placenta products.

Consent

By signing, client confirms understanding and agreement to all terms.
