

## Introducing the World's First Web-Enabled Transparent VOIP Entry System

### VISION-DIMENSION

30" Transparent Touchscreen Entry System

Webb Electronics has pioneered a new entry system that will transform the access-system industry. The Web Vision-Dimension is a transparent web-enabled entry access system specifically design for multi-residential buildings and office towers. Stylish and modern, the Dimension truly brings together form and function with a gesture-controlled touch screen, multi-lingual voice prompts and complete integration into the Web Vision product line.

The Webb Vision-Dimension is unlike anything on the market and sets a new standard for entry systems. It features an entirely glass touch screen and body, and a 39" see-through touch display supporting 20 simultaneous touch points with a seamless bezel-free design. An impressive feature in any lobby, the Dimension has all the key security requirements you would expect from a state-of-the-art system including lobby door and/or elevator floor restrictions and scalability to incorporate future reader technologies. Optional features include incorporating a built-in camera to read a temporary 2D QR code displayed from a printout and a smartphone to grant access or call a resident or property manager immediately.

#### Product Highlights

- Android O/S Web based Architecture
