8. Manager Report –

- (a) Weiden Drain** – response from letters to Ministers Kostyshyn, Simard and Moyes was to have Provincial Watershed Planner notify the board that the only option to move forward with working on Weiden drain is to pursue licencing on the drain, as Weiden Drain was never designated as an order in council drain. This means that the Manitoba Government did not take easement on the drain when it was constructed.
- It is a board decision for the Manager to pursue licencing of Weiden Drain
 - Plan meeting with Provincial Watershed Planner, Crown Lands and Senior Water Rights Officer to define steps going forward
 - Keep board posted at 2 weeks regarding movement in this process

Will submit photos of the unauthorized works including the cut and rocks left in the drain. This will be reviewed with Senior Water Rights Officer.
